To remove the cap, with the engine cold, turn as far as the safety catch, then press so as to be able to continue turning. Engine hot; wait 10 minutes, step at the safety catch and let the steam escape before resuming turning. Do not add more than half a litre (1 pint) of cold water to a hot engine; wait until it is cold before topping up. Use genuine Citroën ready-for-use antifreeze liquid.

Recommendation

In all seasons: After topping up, have the concentration of antifreeze checked. The need to add water is a sign of something wrong; have it checked by a Citroën dealer.

Manual oil dipstick

The oil level must never exceed the maximum. The difference between the maximum and minimum levels is 1 litre (1 3/4 pints). Check at regular intervals and before any long journeys.
