Undergraduate Courses, Graduate Courses, Fellowships, Higher Degrees Princeton University. Department of History, Politics, and Economics, 1910 *Financing Failure* Vern McKinley, 2012-01-10 During the recent financial crisis no issue has aroused more passion than financial institution bailouts The standard rationale for the bailouts has been one of necessity and fear federal regulatory agencies must have more authority in order to respond to the crisis or else the public will face terrible

consequences But does this rationale hold up to close inspection In *Financing Failure* Vern McKinley approaches the topic by examining the policy decisions behind the bailouts and by showing their connection to previous government interventions He brings under scrutiny the policy decisions made by the Treasury Department the Federal Reserve and the FDIC during the crisis of the 2000s and links them to policies that go back as far as the 1930s This history of bailouts reveals that the genesis of financial crisis is government policy be it the mismanagement of monetary policy during the 1930s or the political push to expand homeownership that helped cause the 2000s crisis The nation's federal financial regulators and the politicians claim to have saved the American economy In truth they have done everything within their power to expand their own influence often far out of view from the public and media Instead of openly explaining their actions the bailout agencies have attempted to prevent the public from reviewing their decision making often at tremendous cost to taxpayers McKinley's painstakingly researched and clear headed analysis of bailouts and government intervention shows that the American public has accepted too many official pronouncements at face value and that reining in the federal regulators is a necessary step toward truly promoting the safety and soundness of the financial system

Congress. House. Special Committee To Investigate the National Security League, 1919 Lessons of Infinite Advantage William Taylor, 2010-03-23 In this book William Taylor tells in his own words the story of a foundational episode in his life Following his trial ministry as a Methodist circuit rider in his home state of Virginia and his service of pastorates in the historic North Baltimore Conference William Taylor 1821 1902 was commissioned as a missionary to California at the beginning of the Gold Rush Era His subsequent seven years of street preaching in San Francisco set the stage for a half century missionary career during which Taylor championed self supporting missions to every populated continent funded by the publication of his widely read books Despite his prolific writing none of Taylor's publications reveal the personal dimensions of his struggles or the day by day development of his missionary perspective This early chapter in Taylor's career emerges for the first time with the publication of his journal privately held by family members for over a century The substantial journal chronicles five of Taylor's seven enterprising years 1849 1856 in San Francisco Sacramento San Jose and the surrounding area while offering a rich first person account of contemporary events written in Taylor's fine narrative style With this journal readers may trace the genesis of Taylor's approach to self supporting missions including the development of his thinking on fund raising and his skepticism toward the possibility of a Christian use of money A scholarly introduction footnotes and appendixes together with several images set Taylor's California experiences in historical context while clarifying and explaining the journal's rhetoric holiness doctrine missionary strategies and oblique references
