## ADDING AND CORRECTING ERRORS

If the postclosing trial balance does not balance, there are errors in the accounting records. To correct the errors before continuing, refer to Chapter 3 for tips on how to find common errors. Also use the audit trail to trace data through the accounting records to find errors.

## Interpreting the Financial Statements

The ninth and last step in the accounting cycle is interpreting the financial statements. Management needs timely and accurate financial information to operate the business successfully. To **interpret** the financial statements means to understand and explain the meaning and importance of information in accounting reports. Information in the financial statements answers to many questions:
