Memo Lifescience Paper November 2014:

Arab Dawn Bessma Momani, 2015-11-26 In the West news about the Middle East is dominated by an endless stream of reports and commentary about civil war sectarian violence religious extremism and economic stagnation But do they tell the full story For instance who knew that university enrolment in the war torn Palestinian territories exceeds that of Hong Kong or that more than a third of Lebanese entrepreneurs are women Change is on its way in the Middle East argues Bessma Momani and its cause is demographic Today one in five Arabs is between the ages of fifteen and twenty four Young optimistic and increasingly cosmopolitan their generation will shape the region's future Drawing on interviews surveys and other research conducted with young people in fifteen countries across the Arab world Momani describes the passion for entrepreneurship reform and equality among Arab youth With insightful political analysis based on the latest statistics and first hand accounts Arab Dawn is an invigorating study of the Arab world and the transformative power of youth

Governomics Ian McAuley, Miriam Lyons, 2015-05-01 People have good reason to demand decent public education and a well funded health system to yearn for an economy that doesn't trash the environment or for a smaller gap between rich and poor Almost without exception sound economics is on their side We've grown used to public debates that pit people and the planet against an abstract distorted image of the economy but it doesn't have to be this way Governomics shows that an emaciated state is bad for business and that standing up for government means standing up for a public sector that truly serves the public Everybody knows governments are wasteful incompetent and a drag on the economy But if you're not sure that's true read this book Ross Gittins Sydney Morning Herald and The Age Governomics shows that a market economy can only work when sustained by a strong and active public sector It will inject some much needed economic sanity into conversations on the role of government in Australia John Quiggin Australian Research Council Laureate Fellow University of Queensland

Global Social Policy Kepa Artaraz, Liz Cunningham, Michael Hill, 2016-06-29 Social policy is a subject that helps develop our understanding of the meaning of human wellbeing and of the systems by which wellbeing must be promoted As a discipline social policy has traditionally been blunted by a focus on the nation state however in this age of globalisation the most pressing challenges such as climate change ageing populations and flagging economies serve as proof that even at national level social policy is now more heavily influenced by global factors than ever before In this important and authoritative text Kepa Artaraz and Michael Hill provide a richly detailed contribution to our understanding of the global forces shaping social problems today Part One discusses the different approaches to social policy and explores the process of globalisation looking particularly at its winners and losers and the implications it has for human well being Part Two examines more closely the key actors in global social policy such as the market the state and international organisations and Part Three provides an opportunity to explore some specific key issues of global importance such as employment and migration demographic change and global poverty Adding considerable momentum to the movement away from a

reductionist nationally focused study of the discipline Global Social Policy opens up new and stimulating discussions and provides a fresh framework for the study of human well being Using policy examples from areas around the world to provide a truly international scope it is an essential read for students studying at all levels **MAPPING CONFLICT IN**

CHITTAGONG HILL TRACTS 1997-2014 Zahid ul Arefin Choudhury, 2020-04-27 The issue of the Chittagong Hill Tracts is as divisive as the region itself At one end there are tales of woe how the original inhabitants of the region are being evicted from their land through violence and trickery their marginalization and elimination of their traditional way of life simultaneously while it is being exoticized for tourism These accounts however paint a static picture where the members of these ethnic groups are victims always and without any agency Consequently these accounts fail to hold up in front of close examination and invites counter opinion rage that the Bengali and other ethnicities of CHT are prevented from living in harmony by disruptive elements within the society that the oppression and repression of the hill peoples are made up stories that feed national and international conspiracies In Conflict Mapping in the Chittagong Hill Tracts researchers from the Department of Peace and Conflict Studies at the University of Dhaka cut through this fog of confusion by presenting dispassionate unornamented data With the help of original data and systematic analysis they show how the social life of CHT is marked by deep polarization both within and across the ethnic divide how it is beset by real and perceived accounts of discrimination and by lack of confidence on state agencies and the rule of law They also investigate the trajectory of major cases of violence in the region in the past two decades and reveal that these have a common escalation pattern with various points marked by missed opportunities for prevention Based on a study that draws from a large survey of a cross section of people from 8 of the most crime prone Upazilas of the region semi structured interview of selected elites and analysis of the dynamics of 14 incidents of large scale violence between 1997 and 2014 this book aims at initiating a healthy constructive conversation on the issue It challenges long held prejudices common sense beliefs and unsubstantiated propaganda By offering the lens of social science the book invites readers with well meaning but vague opinions as well as consumers of zealous and spoon fed ideas to form informed and nuanced opinion **Assured Destruction** David Bath, 2020-03-15 Assured Destruction Building the Ballistic Missile Culture of the U S Air Force documents the rapid development of nuclear ballistic missiles in the United States and their equally swift demise after the Cuban Missile Crisis revealing how these drastic changes negatively influenced both the Air Force and the missile community David W Bath contends that the struggle to create and control nuclear ballistic missiles threatened both the dominance of the United States during an intensifying Cold War and the strategic airpower mission of the newly created Air Force The book details the strenuous efforts required to create and prepare a missile arsenal before the Cuban Missile Crisis which occurred only five years after the first missile was declared operational It uses the personal recollections of former missileers and the professional military education theses they wrote to highlight some of the concerns that have faced the missileers who operated and worked on these powerful

weapons from 1957 to the present The highlight of the book however is the personal stories of the missileers who served during the missile crisis revealing the efforts that they went to in order to prepare these unique and untried weapons for what many thought might become the third world war

Risk Regulation in the Internal Market Maria

Weimer,2019-03-13 This book offers a topical inquiry into the legal and political limits of EU regulation in the field of risk and new technologies surrounded by techno scientific complexity uncertainty and societal contestation It uses agricultural biotechnology as a paradigmatic example to illustrate the complex intertwinement between environmental public health economic and social concerns in risk regulation Weimer analyses the drawbacks of the EU approach to agricultural biotechnology showing that its reductionism i e the narrow understanding of GMO risks as well as the exclusion of broader societal concerns related to environmental and social sustainability has undermined both the legitimacy and effectiveness of EU regulation in this area Resistance to this approach however has also triggered legal innovations prompting us to re think EU internal market law including the way in which it manages the tensions between unity and diversity and between social and economic concerns This text offers fresh and original insights into how far the EU can go in harmonizing regulatory approaches to risk At the same time it proposes new ways of re thinking EU risk regulation to make it more responsive to different perspectives on risk and technology A unique feature of this book is that it contributes to various strains of scholarship including risk regulation internal market law public administration and studies of governance and regulation as well as connecting these themes to broader debates about the legitimacy of European integration and new ways of differentiated integration As a result it assists in re imagining the EU internal market and its regulation as a site of diversity

Genetically Engineered Crops National Academies of Sciences, Engineering, and Medicine,Division on Earth and Life Studies,Board on Agriculture and Natural Resources,Committee on Genetically Engineered Crops: Past Experience and Future Prospects,2017-01-28 Genetically engineered GE crops were first introduced commercially in the 1990s After two decades of production some groups and individuals remain critical of the technology based on their concerns about possible adverse effects on human health the environment and ethical considerations At the same time others are concerned that the technology is not reaching its potential to improve human health and the environment because of stringent regulations and reduced public funding to develop products offering more benefits to society While the debate about these and other questions related to the genetic engineering techniques of the first 20 years goes on emerging genetic engineering technologies are adding new complexities to the conversation Genetically Engineered Crops builds on previous related Academies reports published between 1987 and 2010 by undertaking a retrospective examination of the purported positive and adverse effects of GE crops and to anticipate what emerging genetic engineering technologies hold for the future This report indicates where there are uncertainties about the economic agronomic health safety or other impacts of GE crops and food and makes recommendations to fill gaps in safety assessments increase regulatory clarity and improve innovations in

and access to GE technology The Global Muslim Brotherhood in Britain Damon Perry, 2018-07-17 Since 2011 with the British Government's counter radicalisation strategy Prevent non violent Islamist groups have been considered a security risk for spreading a divisive ideology that can lead to radicalisation and violence More recently the Government has expressed concerns about their impact on social cohesion entryism and women's rights The key protagonists of non violent Islamist extremism allegedly include groups and individuals associated with the Muslim Brotherhood and Jama'at al Islami They have been described as part of the global Muslim Brotherhood but do they constitute a singular phenomenon a social movement This book shows that such groups and individuals do indeed comprise a movement in Britain one dedicated to an Islamic revival It shows how they are networked organisationally bonded through ideological and cultural kinship and united in a conflict of values with the British society and state Using original interviews with prominent revivalist leaders as well as primary sources the book also shows how the movement is not so much Islamist in aspiring for an Islamic state but concerned with institutionalising an Islamic worldview and moral framework throughout society The conflict between the Government and the global Muslim Brotherhood is apparent in a number of different fields including education governance law and counterterrorism But this does not simply concern the direction of Government policy or the control of state institutions It most fundamentally concerns the symbolic authority to legitimise a way of seeing thinking and living By assessing this multifaceted conflict the book presents an exhaustive and up to date analysis of the political and cultural fault lines between Islamic revivalists and the British authorities It will be useful for anyone studying Islam in the West government counter terrorism and counter extremism policy multiculturalism and social cohesion **The**

Counterrevolution Bernard E. Harcourt, 2018-02-27 A distinguished political theorist sounds the alarm about the counterinsurgency strategies used to govern Americans Militarized police officers with tanks and drones Pervasive government surveillance and profiling Social media that distract and track us All of these contends Bernard E Harcourt are facets of a new and radical governing paradigm in the United States one rooted in the modes of warfare originally developed to suppress anticolonial revolutions and more recently to prosecute the war on terror The Counterrevolution is a penetrating and disturbing account of the rise of counterinsurgency first as a military strategy but increasingly as a way of ruling ordinary Americans Harcourt shows how counterinsurgency's principles bulk intelligence collection ruthless targeting of minorities pacifying propaganda have taken hold domestically despite the absence of any radical uprising This counterrevolution against phantom enemies he argues is the tyranny of our age Seeing it clearly is the first step to resisting it effectively We the People Jill Lepore, 2025-09-16 NEW YORK TIMES BESTSELLER Lepore's 15th book We the People a history of the U S Constitution may be her best yet a capacious work that lands at the right moment like a life buoy as our ship of state takes on water Hamilton Cain Los Angeles Times From the best selling author of These Truths comes We the People a stunning new history of the U S Constitution for a troubling new era The U S Constitution is among the oldest

constitutions in the world but also one of the most difficult to amend Jill Lepore Harvard professor of history and law explains why in *We the People* the most original history of the Constitution in decades and an essential companion to her landmark history of the United States *These Truths* Published on the occasion of the 250th anniversary of the nation's founding the anniversary too of the first state constitutions *We the People* offers a wholly new history of the Constitution One of the Constitution's founding purposes was to prevent change Lepore writes Another was to allow for change without violence Relying on the extraordinary database she has assembled at the Amendments Project Lepore recounts centuries of attempts mostly by ordinary Americans to realize the promise of the Constitution Yet nearly all those efforts have failed Although nearly twelve thousand amendments have been introduced in Congress since 1789 and thousands more have been proposed outside its doors only twenty seven have ever been ratified More troubling the Constitution has not been meaningfully amended since 1971 Without recourse to amendment she argues the risk of political violence rises So does the risk of constitutional change by presidential or judicial fiat Challenging both the Supreme Court's monopoly on constitutional interpretation and the flawed theory of originalism Lepore contends in this gripping and unfamiliar story of our own past that the philosophy of amendment is foundational to American constitutionalism The framers never intended for the Constitution to be preserved like a butterfly under glass Lepore argues but expected that future generations would be forever tinkering with it hoping to mend America by amending its Constitution through an orderly deliberative and democratic process Lepore's remarkable history seeks too to rekindle a sense of constitutional possibility Congressman Jamie Raskin writes that Lepore has thrown us a lifeline a way of seeing the Constitution neither as an authoritarian straitjacket nor a foolproof magic amulet but as the arena of fierce logical passionate and often deadly struggle for a more perfect union At a time when the Constitution's vulnerability is all too evident and the risk of political violence all too real *We the People* with its shimmering prose and pioneering research hints at the prospects for a better constitutional future an amended America
