Canadian Moving Picture Digest, 1926 **Canada's Founding Debates** Janet Ajzenstat, Paul Romney, Ian Gentles, William D. Gairdner, 2017-06-21 Canada's Founding Debates is about Confederation about the process that brought together six out of the seven territories of British North America in the years 1864-73 to form a country called Canada. It presents excerpts from the debates on Confederation in all of the colonial parliaments from Newfoundland to British Columbia and in the constituent assembly of the Red River Colony. The voices of the powerful and those of lesser note mingle in impassioned debate on the pros and cons of creating or joining the new country and in defining its nature. In short explanatory essays and provocative annotations the editors sketch the historical context of the debates and draw out the significance of what was said. By organizing the debates thematically they bring out the depth of the founders' concern for issues that are as vital today as they were then: the meaning of liberty, the merits of democracy, the best form of self-government, the tension between collective and individual rights, the rule of law, the requirements of political leadership, and of course the nature of Canadian nationality. Canada's Founding Debates offers a fresh and often surprising perspective on Canada's origins, history, and political character. Previously published by Stoddart Publishing, 1999. The basis of this assertion is a long-standing interpretation of Section 91(24) of Canada's Constitution which reads it as a plenary grant of power over Indigenous communities and their lands, leading the courts to simply bypass the question of the inherent right of self-government. In *A Reconciliation without Recollection* Joshua Ben David Nichols argues that if we are to find a meaningful path toward reconciliation, we will need to address the history of sovereignty without assuming its foundations. Exposing the limitations of the current model, Nichols carefully examines the lines of descent and association that underlie the legal conceptualization of the Aboriginal right to govern. Blending legal analysis with insights drawn from political theory and philosophy, *A Reconciliation without Recollection* is an ambitious and timely intervention into one of the most pressing concerns in Canada.  Biro,2024-04-02 Section 33 what is commonly referred to as the notwithstanding clause NWC was written into the Canadian
 Charter of Rights and Freedoms to allow Parliament and the provinces to provisionally override certain Charter rights The
 Notwithstanding Clause and the Canadian Charter examines the NWC from all angles and perspectives considering who
 should have the last word on matters of rights and justice the legislatures or the unelected judiciary and what balance liberal
 democracy requires In the case of Quebec the use of the clause has been justified as necessary to preserve the province s
 culture and promote its identity as a nation Yet Quebec s pre emptive and sweeping invocation of the clause also challenges
 the scope of judicial review and citizens recourse to it and it tests the assumption that a dialogue between the judiciary and
 the legislature is always preferable in instances in which the legislative branch decides to suspend the operation of certain
 Charter rights and freedoms By virtue of its contested purposes interpretations operation and applications the NWC
 represents and to an extent defines both the character and the very real vulnerabilities of liberal constitutionalism in Canada
 The significance effects and legitimacy of the NWC have been vigorously debated within scholarship and among politicians
 and activists since the patriation of the Canadian Constitution in 1982 In The Notwithstanding Clause and the Canadian
 Charter leading scholars jurists and policy experts elucidate and prescribe reforms to the application of this consequential
 clause about which so much is written and around which there is relatively little consensus **Travels in Search of a**
