Civic Politics in the Rome of Urban VIII Laurie Nussdorfer, 2019-04-23 In this colorful depiction of daily political life in Baroque Rome Laurie Nussdorfer argues that the lay persons managed to sustain a civic government under the increased papal absolutism of Urban VIII 1623 1644 who oversaw both sacred and secular life Focusing on the S P Q R the Senate and the Roman People which was ministered from the capitoline Hill she shows that it provided political representation for lay members of the urban elite carried out the work of local government and served as a symbol of the Roman voice in public life Through a detailed study of how civic authorities derived their sense of legitimacy and how lay subjects maneuvered in informal and disguised ways to block or criticize the papal regime the author advances a new way of conceiving politics under an absolute ruler As Nussdorfer analyzes the complex interactions between the lay administration and Urban VIII and his family the papal administration and Romans of the upper and lower classes she also provides fresh insights into the actual practice of early modern government She takes the plague threat of the early 1630s the War of Castro 1641 1644 and the interregnum following the pope s death as important test cases of the state s power in times of crisis Laurie Nussdorfer is Assistant Professor of History and Letters at Wesleyan University Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Social Science as Civic Discourse Richard Harvey Brown, 1989-11-16 Richard Harvey Brown s pioneering explorations in the philosophy of social science and the theory of rhetoric reach a culmination in *Social Science as Civic Discourse* In his earlier works he argued for a logic of discovery and explanation in social science by showing that science and art both depend on metaphoric thinking and he has applied that logic to society as a narrative text in which significant action by moral agents is possible This new work is at once a philosophical critique of social theory and a social theoretical critique of politics Brown proposes to redirect the language and the mission of the social sciences toward a new discourse for a humane civic practice

The Civic Foundations of Fascism in Europe Dylan Riley, 2019-01-29 A historical look at the emergence of fascism in Europe Drawing on a Gramscian theoretical perspective and development a systematic comparative approach *The Civic Foundations of Fascism in Europe* Italy Spain and Romania 1870 1945 challenges the received Tocquevillian consensus on authoritarianism by arguing that fascist regimes just like mass democracies depended on well organized rather than weak and atomized civil societies In making this argument the book focuses on three crucial cases of inter war authoritarianism Italy Spain and Romania selected because they are all counter intuitive from the perspective of established explanations while usefully demonstrating the range of fascist outcomes in interwar Europe *Civic Foundations* argues that in

all three cases fascism emerged because the rapid development of voluntary associations combined with weakly developed political parties among the dominant class thus creating a crisis of hegemony Riley then traces the specific form that this crisis took depending on the form of civil society development autonomous as in Italy elite dominated as in Spain or state dominated as in Romania in the nineteenth century **Civics Today** McGraw-Hill Staff, Richard C.
