Global Sourcing - The strategic reorientation of purchasing Wolfgang Schneid, 2006-04-20 Seminar paper from the year 2004 in the subject Business economics Supply Production Logistics grade 1 3 Heidenheim University of Cooperative Education course International Management language English abstract Es ist nicht genug zu wissen man mu es auch anwenden Es ist nicht genug zu wollen man mu es auch tun Goethe Globalisation of markets progresses rapidly and leads to more competition In times of Supply Chain Management Cost Saving Measures and Outsourcing companies have to reorient their business planning New concepts are necessary to reach a cost efficient production In this context globalisation must not only be considered as global selling of own products With the same effort global logistics and procurement have to be taken into account to gain global success Global Sourcing is already known as conscious orientation of a purchasing strategy However its implementation hasn't gone far yet Increasing economical interweaving and better technological possibilities make Global

Sourcing even for middle class companies more relevant than ever before Global Sourcing is more than just buying goods and services in foreign countries In bounds of company philosophy efficient strategies have to be developed to ensure international competitiveness Extending of purchasing options access to world wide know how or even increasing sales of own products are just some features of this concept Before integrating the Global Sourcing Concept in other company strategies a closer look is necessary The focus of this term paper remains in showing Global Sourcing as a part of the reorientation of purchasing determining its features and risks as well as indicating the strategy of Global Sourcing For not going beyond the scope of this work I will refrain from exact determination of every single sourcing strategy Sourcing Toolbox Even it s not its task to set exact guidelines concerning the integration into company s strategies Additionally this term paper mostly refers to the industrial view and just in part to the retailing sector

International Sourcing Daniel Senft,2013-09-25 Globalization leads to increased fierce competition and companies which do not pursue successful global sourcing within the next five years are probably not able to survive However global sourcing projects are highly complex and two thirds of all sourcing projects in Europe are considered to have failed A tool of ten steps is elaborated to show how to evaluate the success of sourcing by considering the potentials and risks in an international context Successful managing of international sourcing however does not only imply the primary goal to acquire parts cheaply abroad but it can be seen as a kind of strategic weapon to create a strong market position and to keep the company successful on the long term

Global Sourcing Strategy Masaaki Kotabe,1992-06-30 This unique book empirically explores the complex issue of how successful multinational firms manage interfaces of R D manufacturing and marketing on a global basis emphasizing the linkages among them in the value chain For the encompassing nature of this investigation the author calls this interface issue global sourcing The major objective of the book is to investigate the market performance of various global sourcing strategies employed by multinational firms Successful Japanese cases are also highlighted Based on extensive research findings the book provides practical and normative guidelines for managing new product design and development manufacturing and marketing around the world in an era of global competition

Global Sourcing Gerhard Trautmann,2008-09-29 Gerhard Trautmann explains the relationship between global sourcing strategy and organization design **Global Sourcing Strategy and Its Impact on Business Performance** Sang-Shik Lee,1996 **Global Sourcing Strategy** Masaaki Kotabe,1992-06-30 This unique book empirically explores the complex issue of how successful multinational firms manage interfaces of R D manufacturing and marketing on a global basis emphasizing the linkages among them in the value chain For the encompassing nature of this investigation the author calls

this interface issue global sourcing The major objective of the book is to investigate the market performance of various global sourcing strategies employed by multinational firms Successful Japanese cases are also highlighted Based on extensive research findings the book provides practical and normative guidelines for managing new product design and development manufacturing and marketing around the world in an era of global competition *Development of a Global Sourcing Strategy Through Purchasing Portfolio Management* Justus Wiedemann, 2014-02-10 Studienarbeit aus dem Jahr 2013 im Fachbereich BWL Unternehmensführung Management Organisation Sprache Deutsch Abstract Ever since the introduction of Business solutions in the late 1990s markets have been evolving to more transparency and immediacy Having the capability of comparing prices and lead times the global key customer base also has become more demanding in terms of price quality and availability These changes have been increasing market pressure especially within the trading industry which often adds no or little value to the original product The tool machine working equipment and service provider the XYGroup with its headquarters in Germany offers almost seventy thousand articles from simple steel grinding tools to high complexity industry working equipment solutions The products are mostly delivered from the German headquarters to the subsidiaries The company has been operating since 1910 In 2012 its sales amounted roughly to 100 million One of the 15 subsidiaries within XY is XY CHINA is situated in the directly governed municipality CHINA The subsidiary was founded in 2002 In 2012 it accounted for 4% of total XY sales The location City in China was chosen because it provides a mature infrastructure including a harbor and a convenient highway connection to Beijing In 2012 CHINA has reported Gross Domestic Product per capita of 91 180 6 RMB which was the highest GDP per capita of all Chinese cities Furthermore CHINA's real GDP had the highest growth rate of all Chinese cities 13 8% in 2012 Key accounts are leading automotive as well as aircraft manufacturers Due to the financial crash in 2008 and its aftermath sales declines in consumer as well as professional markets Competition within the tool and machine industry has ever since become fierce and the subsidiary struggles with different internal as well as external factors One of the indicators for the accentuation of competition within the Chinese market is the subsidiary's increasingly growing Outsource Procurement Quota This quota states the amount of goods not being ordered from the headquarters in Germany but locally in China or in other countries from external suppliers What might be the reason the purchasing managers currently source an increasing number of goods locally or in other countries instead of sourcing from their mother company that states to provide reliable conditions and quality **Global Sourcing of Services** Shailendra C. Jain Palvia, 2013-01-01 Global Sourcing - The reorientation in purchasing Thomas Drabner, 2003-06-10 Seminar paper from the year 2002 in the subject Business economics Supply Production Logistics grade 1 2 A Heidenheim University of Cooperative Education Economics and International Trade course International Management language English abstract One of the most important economic prerequisites for operating on the market is the efficient procurement of quality goods and services International orientation is hereby becoming increasingly influential Due to

globalisation the world is to be seen as one single market The impact of this perspective does not only refer to global sales but to global procurement as well In terms of an international perspective the term Global Sourcing has evolved describing the challenging opportunity of supplementing traditional procurement by international complex activities Worldwide suppliers worldwide options and the access to global knowledge increase the need for detailed evaluation Global sourcing hereby aims at ensuring a competitive advantage in terms of procurement politics Those politics equally contain chances and risks A variety of suppliers also means a variety of quality standards International sources require international logistics Therefore global sourcing is beyond simple international purchasing and rather a general strategic orientation towards international supply markets Consequently the focus of this term paper is to determine the strategic orientation of procurement politics towards Global Sourcing on the basis of international supply chain management

Global Sourcing and Supply Management Excellence in China Marc Helmold, Brian Terry, 2016-08-26 This book provides readers a holistic and pragmatic approach towards supply management in China It elaborates on how supply management should integrate the optimum level and a combination of quality cost and delivery In addition to serving as a guide on how to address cultural barriers apply supply tools and concepts it also illustrates the best practices in supply management in China It draws from a large number of best practices of companies from automotive to railway to convince other functional departments and higher management that supply management plays the most fundamental role in any organization due to the high number of value adding activities which are coming from suppliers These practices have been derived by a multi methodical approach including interviews with supply management leaders from industry and experts in academia making it as unique and a suitable a guide for practitioners and academics

Global Sourcing Of Services: Strategies, Issues And Challenges Shailendra C Jain Palvia, Prashant Palvia, 2016-11-01 There are three stages to outsourcing The first occurred at the dawn of industrial era in the 19th century where mass production for consumption by many became the norm and simple domestic means could not meet such demands With the cost of labor soaring in developed countries manufacturing of products started moving to countries like China to take advantage of labor arbitrage in the 1900s This is the second stage of outsourcing This book addresses issues and challenges in the third stage of outsourcing whose focus is on movement of services at electronic speed utilizing the Internet platform The book includes short essay questions multiple choice questions mini cases at the end of most chapters and glossary of terms It can also serve as a good reference book for practitioners

Global Sourcing Practices Marini Nurbanum Binti Mohamad, 2009 The aim of the research reported in this thesis is to gain understanding of global sourcing practices of companies in the UK and to develop a framework to improve sourcing strategy implementation This research was conducted by carrying out literature review analysis of case studies through semi structured interviews analysis of an online based survey development of a global sourcing framework feedback process and finally the refinement of the framework The global sourcing practices in terms of eight critical success factors which were identified through literature was investigated through case studies This research also provides insights into how critical certain factors are to the effectiveness of the company's sourcing strategy and how broadly were those factors actually implemented The gaps between the perceived importance of global sourcing practices and the actual implementation were explored through survey The information gathered from the literature case studies and survey provided the input to develop a global sourcing framework As more and more studies create awareness of the critical success factors that are important for implementing a global sourcing strategy there is a need for a framework to be developed to help a company identify areas where they can improve in terms of implementation of the sourcing strategy The global sourcing framework was developed to assess the current sourcing

level of companies providing guidance for companies to identify the areas for improvement in their approach to global sourcing and helping companies determine where they need to be in terms of the global sourcing strategy and having it aligned with their corporate strategy. The framework has been validated and found to be feasible, usable, and useful to improve a company's sourcing strategy.
