L'Afrique sera chinoise Édouard Mendaux, 1965 L'Afrique des Chinois Philippe Richer, 2012-12-01 La 4e de couv indique L offensive que la Chine conduit en Afrique depuis quelques ann es est sans doute le signe le plus tangible que son statut mondial s est transform En effet cette offensive se d veloppe loin des fronti res chinoises dans une zone que les puissances occidentales se r servaient jusqu alors et elle vise l acc s des mati res premi res d une importance strat gique Pour le comprendre Philippe Richer apporte des l ments indispensables D abord de l histoire une histoire chinoise dans laquelle l Afrique n a t pr sente que de fa on cliptique et finalement r cente preuve que se produit actuellement une v ritable mutation de la puissance chinoise mais aussi que la diplomatie chinoise risque gros Ensuite des explications conomiques l essentiel est en effet que la Chine ne s int resse plus enseigner aux Africains son vangile r volutionnaire comme dans les ann es soixante mais qu elle est assoiff e de p trole et affam e de mati res premi res Enfin des l ments de jugement n cessaires la compr hension d une relation sino africaine qui n est d aucune fa on simple et qui n a probablement pas encore dit sa v rit Extrait de la pr face de Jean Luc Domenach La Chine et l'Afrique □□, 2006 *Les Chinois et l'Afrique*, 1964

nouvelles stratégies d'intervention intellectuelle dans l'objectif de soutenir la politique étrangère de la Chine en Afrique et cela en reliant les initiatives de développement Afrique Chine une perspective globale plus large et en offrant une alternative réaliste aux modèles Nord-Sud qui dominent le modèle de gouvernance libéral. En analysant la manière dont la connaissance est produite, assimilée et relayée par la communauté des experts chinois sur l'Afrique, cette étude explore non seulement le contenu et les caractéristiques des savoirs sur l'Afrique en Chine mais met aussi en évidence les schémas narratifs et l'importance des récits comme sources de pouvoir dans la construction ou la contestation des relations entre les acteurs du système international.

La Chinafrique Serge Michel, Michel Beuret, 2009 La 4^e de couverture indique : Par centaines de milliers obéissant au mot d'ordre Sortez de Hu Jintao les Chinois se ruent vers l'Afrique. Pour le pire parfois pour le meilleur aussi. En échange de matières premières dont le continent noir regorge pétrole, gaz, minerais, uranium, bois, poissons, la Chine intègre l'Afrique dans la mondialisation. Grâce à Pékin l'Afrique vit un boom économique sans précédent concurrençant rudement les pays occidentaux. Qui sont ces aventuriers chinois ? Dans quels pays vont-ils ? Pour y faire quoi ? Quel est le secret de leur succès ? Comment se passe la rencontre de ces deux mondes si différents ? Avec quelles conséquences sur les droits de l'homme et l'environnement ? Pour répondre à ces questions les auteurs ont parcouru quinze pays sillonnant tout le continent, la rencontre de cette Chinafrique des forêts tropicales du Congo aux rivages du Nigeria, des sables du Niger aux pipelines du Soudan, des souvenirs d'Égypte, made in China, aux restaurants gastronomiques de Douala en passant par les chantiers d'Algérie. Cette édition est augmentée de chapitres inédits qui soulignent la contradiction entre l'apport chinois au développement économique de l'Afrique et l'exploitation parfois cynique de la main-d'œuvre africaine comme en Zambie, ainsi que la rivalité qui oppose désormais en Afrique la Chine et les États-Unis.

La conception chinoise des relations avec l'Afrique Chung-Lian Jiang, 2008 Cette thèse analyse la conception et la réalité des relations sino-africaines en se basant sur une approche structurale. Le concept de politique africaine de la Chine va de l'aide solidaire à l'action mercantiliste en passant par la stratégie d'influence pour la construction d'un nouvel ordre mondial permettant à la Chine de s'offrir un environnement favorable et un meilleur levier diplomatique son émergence en dehors de la région où elle se trouve. Comme les visées sont diversifiées les méthodes sont multidimensionnelles. C'est pourquoi la politique africaine de la Chine d'aujourd'hui nous montre un visage bien différent de ce qu'il était par le passé. L'Afrique ne serait-elle pas un prisme travers lequel se projette la puissance de demain de ce géant asiatique ? Le Grand Bond actuel de l'empire du Milieu en Afrique trouve ses racines et sa logique dans l'impératif du contexte structurel international comme domestique.
