# Making Connections

## A Laboratory Activity for the Living Environment

### Measuring Connections

In this online laboratory, students are given freedom to explore in the natural world. But students' research focus reflects that program's interest in the structure of genetic traits: a complex web of genes, interactions between and across genes, and the effects of the environment on genetic traits. All of these factors contribute to the development of an organism's traits. This activity is designed to help students understand the complex interactions between genes and the environment.

Students will explore the connections between the structure of genetic traits and the environment. They will learn how to use the structure of genetic traits to understand the environment. They will also learn how to use the environment to understand the structure of genetic traits. This activity is designed to help students understand the complex interactions between genes and the environment.

In this part of the laboratory activity, you will explore the connections between genetic traits and the environment. You will learn how to use the structure of genetic traits to understand the environment. You will also learn how to use the environment to understand the structure of genetic traits.
