information for practitioners already in the industry *Accounting Ethics: Empirical studies of accounting ethics* J. Edward Ketz, 2005-12-15 For years accounting ethics has been viewed as an unimportant adjunct of academic and professional accounting. However, the economic scandals of the early twenty-first century have dramatically nullified this characterisation with the ruination of investors in Enron, WorldCom, Waste Management, Adelphia, Tyco, and scores of other business concerns, raising questions about the adequacy and relevance of academic research into accounting ethics as well as the ethical nature of professional parties. Presenting important papers that reassess these theories, research studies, and professional practices in the field of accounting ethics, this collection scrutinizes the body of knowledge that did not protect the investing public and examines the current crisis in the creditability of financial reports. Canadiana, 1991-12 **Laboratory Management**

Denise Harmening, 2007 The laboratory environment is ever changing in response to the diverging trends in healthcare. Laboratory managers who can create solutions to today's problems and effectively manage change are in high demand. The second edition of Denise Harmening's *Laboratory Management* is designed to give a problem-based approach to teaching the principles of laboratory management; the text focuses on presenting underlying managerial concepts and assisting the learner in successfully applying theoretical models to real-life situations.
