Medieval Europe 400 1500 Koenigsberger And Briggs History Of Europe:

Medieval Europe 400 - 1500 H G Koenigsberger, 2014-01-14 This book traces across the millennium of the Middle Ages the gradual crystallisation of a new and distinctive European identity Koenigsberger covers the Islamic Byzantine and central Asian worlds in his account which explains Europe's progression from chaos and collapse to the point where it was set to rule much of the world

Lawless Ladies Trish Colton, Diane Holloway, 2025-03-20 This fascinating book looks at various crimes perpetrated in all four countries of the UK over ten centuries the stories of almost 200 of the many women who committed them and the punishments they received From before William the Conqueror arrived until now there has been very little change in the types of crimes women commit In March AD 978 Queen Aelfthryth murdered her stepson and in the 1940s a transgender woman was in one of her funny moods so she brutally murdered her neighbour In the intervening centuries women were committing a variety of crimes and getting punished for them if they got caught This book tells the story of some of them

Economic Development in the Twenty-first Century Matthew Kofi Ocran, 2019-04-27 This book uses lessons from history to help African countries take charge of their own economic development agenda History is an important part of Africa's economic development narrative and Ocran investigates how the development outcomes between Africa and Western Europe became so divergent when in the early medieval period average income levels and economic development in the two regions differed only marginally The sixteenth century marked a turning point with the emergence of Western European mercantilism and capitalism and their associated exploitation of other countries In understanding Africa's economic development it is crucial to recognise that Africa has not always been poor Examining 400 years of enslavement and colonisation this book takes us to present day Africa and economic issues affecting the continent With selected case studies from Hong Kong Taiwan and Singapore to South Korea and China Ocran proposes ways to break out of the economic development quandary Africa currently faces

Modern Europe 1789-1989 Asa Briggs, Patricia Clavin, 1997 Modern Europe provides both text and illustrations which draw on a wide range of sources from state archives published memoirs and heroic paintings to private letters oral testimony picture postcards cartoons and songs

Prince, Saint, and Apostle Jukka Korpela, 2001 The Baptist of Russia Vladimir is a key figure of the today's Nationalistic policy and culture of the country Our actual knowledge about the prince who governed from 978 1015 in Kiev is however extremely little Our views are based on the texts which were written down a long time after his death and contain political religious and national interpretations with which rulers of different periods sought to justify publicly their own policy with reference to the Baptist of Russia For the first time the figure of the St Vladimir occurred as the religious east west contrast around the turn from the 13th to 14th Century in Europe was finally fixed With the posthumous interpretation of the lifework Vladimirs conquests of the ascending Muscovite empire from the 14th to 16th Century were justified The veneration of St Vladimir returned with the Muscovites conquest and the Russification of the Ukraine in the 17th to 19th Century into the homeland of the prince to Kiev

History, 1988 **Cooperative Sovereignty** Franz Xaver Perrez, 2021-10-25 In the late 20th century it has become widely accepted that States need to cooperate in order to pursue effectively their interests within the increasingly interdependent world order At the same time the principle of sovereignty is still often invoked as a claim for independence and a justification for non cooperation This book goes beyond that traditional understanding to develop a new theory which holds that cooperation between States is not an independent principle supplementing State sovereignty or even a counterweight to State sovereignty Rather cooperation should be conceived an element of the very notion of sovereignty itself Sovereignty is not a negative principle meaning merely State independence and freedom but it also inherently includes a positive element which stresses a State's innate membership in the international community and its authority its responsibility its duty to participate actively in that community In short sovereignty not only means independence it also means a responsibility to cooperate The first part of the book traces the history of the principle of sovereignty from the theories of Grotius and Francisco de Vitoria to the modern understanding of the principle in the light of the United Nations system The second part of the book poses challenges to the traditional concept of sovereignty in the light of the 20th century interdependence and the third part goes on to formulate a new theory which takes into account the principles of customary law and treaty law The conclusions drawn on by the author are refreshing but may also be controversial and this book will most definitely contribute to the discussion and development of the principle of sovereignty in international law
