**Social Work Practice with People with Dementia** Peter Scourfield, 2022-07-08 Social Work Practice with People with Dementia critically discusses the cultural and discursive contexts in which social work with dementia takes place This is because how we think about dementia influences how we treat people living with the condition The book also explains the demographic context that has made dementia a global public health priority in recent years The different forms of dementia are discussed in a way that is accessible to a non medical readership The book discusses the different settings and circumstances in which social work with people with dementia and their carers takes place and examines the chief elements of the social work role In doing this it explains the professional knowledge skills and values that social workers need in order to practice effectively in this area of growing importance Part of this is appreciating how approaches to dementia care have evolved over time In this context the book

discusses how the dominant bio medical model has been challenged by person centred and rights based approaches As a key part of social work is to offer people choices the book provides information about a wide range of health social care and other services that are available whilst also highlighting the gaps that exist for different groups and in different areas Case studies and activities help the reader apply theory to practice Social Work Practice with People with Dementia will be of particular interest to social work students and early career social workers primarily in a UK context However it contains much relevant information about dementia and dementia practice for anyone involved with adult health and social care both in the UK and around the world **FTD News** Florists' Transworld Delivery Association,1928 *Regrets of the Dying* Georgina

*Touching God* Peter Kevern, 2025-05-27 The dread of dementia has a unique hold over us because dementia seems to eat away at what makes us human If we lose our capacity to remember to think to act and even to speak what is left of us And where is the God who promised to be with us These are profound theological questions that go beyond a need for better pastoral care or more welcoming churches they hold up a mirror to what we really believe about human beings about God and about dementia itself The purpose of this book is to explore what these questions have to teach us by reflecting theologically on the faith journey of people who live with dementia It is a personal theological pilgrimage digging down into the theological meaning of dementia itself looking for hidden pearls of insight But it is also an attempt to look past the details to see the big picture of God's grace and faithfulness embodied in the person and life of the crucified and risen Christ It will speak not just to people who are challenged or troubled by dementia but to anybody seeking to grapple with their faith in challenging times

Numerous conversations subsequently have occurred bringing Light to the Vaught's of what each individual can expect to learn here and hereafter. The journey is laid out in an easy to understand process that bears witness to why each human being lives here and hereafter. The story is a tragedy turned into a triumphant joy for Gary producing an inner peace that brings him now to the threshold of an entirely new and different life.
