Land Tenure, Boundary Surveys, and Cadastral Systems

George M. Cole, Donald A. Wilson, 2016-08-05

Land is important to all aspects of human life and has a key role in the economic well being of society therefore land tenure land ownership and real property law is a critical part of any developed nation. Together the processes of how land parcels are held how they are defined measured and described to allow economic transactions how they are marked to allow their use and defense and how they are legally protected have allowed for the orderly possession and use of land. In doing so these processes have also provided the basis for the advanced economy of most developed nations. Very often these processes land tenure boundary surveying and cadastral systems are considered separately. They are very much interrelated and none of these processes may be completely understood without an understanding of the others. Land Tenure Boundary Surveys and Cadastral Systems provides an introduction to land tenure cadastral systems and boundary surveying including an understanding of the interrelationship of these areas and their role in land tenure and real property law. This is especially true considering the advent of georeferenced cadastral maps reflecting the location of land parcels relative to many other components of the physical and legal infrastructure. Although intended as a basic text for college level surveying courses this book should also be of significant value to cadastral mappers real property attorneys land title professionals and others involved with land transactions

The Curt Brown Chronicles Michael J. Pallamary, 2011-03-11

Curtis M Brown has long been recognized as the worlds foremost authorities on land surveying. His works and textbooks are found in virtually every Land Surveyors library across the country. His legal principles have been adopted by a large number of courts across the United States and his books are standard reference works for practicing Land Surveyors. The Curt Brown Chronicles presents a collection of papers lectures and articles prepared by Mr Brown in the course of developing the principles and authorities for his textbooks and classes. While serving as a member of the American Congress on Surveying and Mapping ACSM Mr Brown was a regular contributor to The Surveyor and Law and the Comment and Discussion columns as well as other important articles. In this capacity Mr Brown would respond to inquiries from Land Surveyors across the United States on a variety of subjects related to land surveying and the application of relevant law. His opinions continue to have considerable influence on the professional land surveying community and the legal community. Many of the papers contained in The Curt Brown Chronicles have not been released since their original publication in the 1950s and 1960s. Nevertheless the subjects are still germane and in many ways Curts focus on many subjects was prescient. Mr Browns articles on Land Surveyors Liability to Unwritten Rights Land Surveyors Ethics and The Professional Status of Land Surveyors are still considered relevant and are held in as high a regard as is Justice Thomas Cooleys Chief Justice Supreme Court of Michigan 1864 1885 famous article The Judicial Functions of Surveyors. The Curt Brown Chronicles has been compiled with the consent and permission of ACSM and the Brown family
