

Face-to-Face (F2F) Encounter - HOME HEALTH

The Affordable Care Act of 2010 (Section 6407) established a physician face-to-face encounter as a requirement of eligibility for Medicare home health services. The certifying physician must document that he/she, or a non-physician practitioner (NPP) working with the physician, has seen the patient. Effective Date: 1/1/2011 [Enforcement Date: 4/1/2011]

When must the F2F occur?	F2F encounter must occur no earlier than 90 days prior to (M0030) Start of Care Date or within 30 days after the Start of Care (SOC).
Who may perform the F2F encounter?	Certifying physician or qualified, collaborating non-physician practitioner (NPP) who is neither employed by or has a financial relationship with the home health agency. ⇒ NPP is defined as a nurse practitioner, physician's assistant, certified nurse midwife, or clinical nurse specialist who is working in collaboration with or supervised by the certifying physician or an acute/post-acute care physician. The certifying physician may use a visit note from F2F encounter performed by a collaborating NPP. For patients admitted to home health immediately following an acute or post-acute facility stay, a physician who cared for the patient in the acute/post-acute facility (or an allowed NPP working with that physician) may perform the F2F encounter. The certifying physician documents that the encounter occurred (process through which the facility and/or home health agency communicates F2F visit to the certifying physician is not specifically mandated in regulation).
What must the F2F encounter documentation include? Important Note: CMS Final Rule for Home Health CY 2021 (CMS-1730-F) allows allowed non-physician practitioners to certify and order home health services. In many areas of this document, the term "physician" means physician/allowed practitioner as defined in the CY 2021 Final Rule for Home Health Services. Effective date: June 1, 2020	- The certifying physician/practitioner must document that the F2F encounter visit took place (regardless of who performed the encounter). - The certifying physician/practitioner is required to certify that a F2F patient encounter: - occurred no more than 90 days prior to the home health SOC (or within 30 days after SOC), and - was related to the primary reason for home health services, and - was performed by the certifying physician, an acute/post-acute, facility physician, or an allowed NPP. - The physician/practitioner must also document the date of the encounter as part of the certification of eligibility. - Effective for episodes beginning on or after January 1, 2015, the <u>F2F narrative requirement is eliminated</u>. However, remember that: ⇒ CMS expects the certifying physician's and/or acute/post-acute facility's medical record to contain clinical documentation of the F2F patient encounter visit that justifies the referral for Medicare home health, the patient's need for skilled services, and homebound status. ⇒ Documentation from the certifying physician's and/or the acute/post-acute facility's medical records must be provided, upon request to the home health agency, review entities, and/or CMS. ⇒ The home health agency must be able to provide this documentation from the certifying physician and/or acute/post-acute facility to CMS and/or its contractors upon request. - Home Health Agency (HHA) staff: ⇒ May communicate information to the certifying physician about the patient's homebound status and need for skilled care. (The physician must review and sign off on any home health communication that is incorporated into the physician's own medical record.) ⇒ May facilitate communication about the F2F encounter (for example, hospital discharge summary) between the acute/post-acute physician and the certifying physician. ⇒ Must ensure the certification is complete prior to billing Medicare for services. ⇒ Physicians/practitioners should complete the certification when the Plan of Care (POC) is established, or as soon as possible thereafter. It is not acceptable for HHAs to wait until the end of the 60-day episode to obtain a completed certification.

Home health agencies should do the following to ensure compliance with the F2F requirement:

- Train all relevant staff on F2F regulations & guidance.
- Educate physicians & staff on their role/responsibility under the rule.
- Institute compliance assurance process to track qualifying encounters, required certifications, and supporting documentation, as needed.
- Establish policies and procedures to respond to circumstances in which the patient does not have a timely qualifying F2F.

The New Face of Evaluation and Management Kellie Hall, 2025-06-30 Physicians want to care for patients not spend their time documenting in an electronic medical record Physicians are always complaining about the amount of time they spend documenting patient care in support of medical billing through an evaluation and management coding system E M New guidelines were created to lessen the time a physician provider spends on documentation as many of the mandatory elements are no longer a requirement for calculating a code level Previously an E M evaluation and management note required documentation of history exam and medical decision making with required elements in each component to support a level for payment If an element was missing the level of service was not supported therefore the code was lowered resulting in a lower reimbursement for the physician provider The new guidelines eliminated the requirement of History and Exam as part of the calculation of a code level Yes an appropriate history and exam are required this supports good patient care but when it comes to reimbursement they are no longer part of the picture The overall system is not difficult if time is taken to understand the elements and how they are applied in the documentation Documentation is a word game always has been the authors focus is to show what words to use to lessen the time but still convey the complexity of the patient s condition and how the physician provider determines a treatment plan which includes the risk to the patient to satisfy the Coding guidelines initiated by Medicare and American Medical Association This book evaluates the new guidelines and brings them into prospective so physicians providers coders can easily understand how to document and calculate the level of service for reimbursement This is not a cumbersome book or complicated but straight to the point The main goal of the book is to educate physicians nurses and coders on what documentation is really required and what has just become habit over the last 30 years

Face To Encounter Guidelines Introduction

In today's digital age, the availability of Face To Encounter Guidelines books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Face To Encounter Guidelines books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Face To Encounter Guidelines books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Face To Encounter Guidelines versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Face To Encounter Guidelines books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Face To Encounter Guidelines books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Face To Encounter Guidelines books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from

the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Face To Encounter Guidelines books and manuals for download have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Face To Encounter Guidelines books and manuals for download and embark on your journey of knowledge?
