done by prevalent constructions of her as an exemplar This book performs a critical discourse analysis of figures of Ashley Smith that emerge in her case looking at those representations as technologies of governance It argues that the Smith case is read most accurately not as an isolated system failure but an extreme result of routine everyday brutality of a society and bureaucracies gradual necropolitical successes It critically analyzes how representations of Ashley in the case leave intact and even reinforce logics and systems governing gender motherhood security risk race thinking and exclusion in power and knowledge that make it predictable for similar deaths in prison to recur It argues that in the logics underlying constructions through which Ashley Smith was celebritized and sacralized mothers girls and women s subjectivities and agencies are made unknowable and even unthinkable while the racialized social boundaries of a white settler society are maintained This book attempts to intervene in those logics to help make alternative outcomes possible and to take steps towards questioning the raced classed and heteronormative boundaries of commonly assumed figures of the noble victim good girl and good mother while supporting the agencies of adolescent girls in actively playing a part in the authoring of their lives
