Common Entrance Maths Worked Examples Wilfred Wright, Transparency in Assessment - Exploring the Influence of Explicit Assessment Criteria Anders Jönsson,Frans Prins,2019-04-03 In many schools and higher education institutions it has become common practice to share assessment criteria with students Sometimes it is required for accountability purposes at other times criteria are used as a means to communicate expectations to students However the idea that explicit assessment criteria should be shared with students has been contested On the one hand research has shown that explicit criteria may positively affect student performance reduce their anxiety as well as support students use of self regulated learning strategies On the other hand there are fears that explicit criteria may have a restraining influence on students learning as well as limiting their autonomy and creativity There are also indications of students becoming more performance oriented as opposed to learning oriented when being provided with explicit assessment criteria Taken together it is not fully understood under which circumstances it is productive for student learning to share explicit assessment criteria and under which circumstances it is not In particular empirical research on the proposed negative effects of sharing criteria with learners is limited and most fears voiced in the literature are based on individual experiences and anecdotal evidence In this book we therefore bring different perspectives on transparency in assessment together in order to further our understanding of how students are influenced by the use of explicit assessment criteria A deeper understanding of the influence of explicit assessment criteria on students understanding of criteria motivation and learning is equally imperative for future research and educational practice both of which need to go beyond individual opinions and convictions *Self-Regulated Learning in the Inverted Classroom* Marion Rink,2024-03-19 The Inverted Classroom is a blended learning scenario that consists of two phases In the Online Phase the learners acquire learning content using interactive learning materials primarily videos provided by the teacher online In a second stage there is an Attendance Phase at the higher education institution with the purpose of learners processing practising and deepening their understanding of what they have already learnt in a class with other stakeholders Based on the Self Determination Theory of Richard M Ryan and Edward L Deci this qualitative study examines how learning in the Inverted Classroom affects the basic psychological needs of autonomy competence and relatedness of higher education engineering students A central aspect is the promotion of the students intrinsic learning
