Federal Register ,2014 **Immigration Law Service** ,2000 **Shared Prosperity and Poverty Eradication in Latin America and the Caribbean** Louise Cord, MarÃa Genoni, Carlos RodrÃguez-CastelÃn, 2015-06-18 Over the last decade Latin America and the Caribbean region has achieved important progress towards the World Bank Group s goals of eradicating extreme poverty and boosting income growth of the bottom 40 percent propelled by remarkable economic growth and falling income inequality Despite this impressive performance social progress has not been uniform over this period and certain countries subregions and even socioeconomic groups participated less in the growth process As of today more than 75 million people still live in extreme poverty in the region using 2 50 day capita half of them in Brazil and Mexico and extreme poverty rates top 40 percent in Guatemala and reach nearly 60 percent in Haiti This means that extreme poverty is still an important issue in both low and middle income countries in the region As growth wanes and progress in reducing the still high levels of inequality in the region slows it will be more important than ever for governments to focus policies on inclusive growth The book includes an overview that highlights progress towards the goals of poverty eradication and shared prosperity between 2003 and 2012 unpacks recent gains at the household level using an income based asset model and examines some of the policy levers used to affect social outcomes in the region It draws on 13 country studies eight of which are featured in this volume Argentina Brazil Colombia El Salvador Mexico Paraguay Peru and Uruguay The other case studies include Bolivia Chile Dominican Republic Ecuador and Honduras which will be included in the web version of the book *Poverty and Shared Prosperity 2018* World Bank, 2018-12-20 The World Bank Group has two overarching goals End extreme poverty by 2030 and promote shared prosperity by boosting the incomes of the bottom 40 percent of the population

in each economy As this year s Poverty and Shared Prosperity report documents the world continues to make progress toward these goals In 2015 approximately one tenth of the world s population lived in extreme poverty and the incomes of the bottom 40 percent rose in 77 percent of economies studied But success cannot be taken for granted Poverty remains high in Sub Saharan Africa as well as in fragile and conflict affected states At the same time most of the world s poor now live in middle income countries which tend to have higher national poverty lines This year s report tracks poverty comparisons at two higher poverty thresholds 3 20 and 5 50 per day which are typical of standards in lower and upper middle income countries In addition the report introduces a societal poverty line based on each economy s median income or consumption Poverty and Shared Prosperity 2018 Piecing Together the Poverty Puzzle also recognizes that poverty is not only about income and consumption and it introduces a multidimensional poverty measure that adds other factors such as access to education electricity drinking water and sanitation It also explores how inequality within households could affect the global profile of the poor All these additional pieces enrich our understanding of the poverty puzzle bringing us closer to solving it For more information please visit worldbank.org/PSP
