## I Ride Auto 2:

*A Study of Technological Improvements in Automobile Fuel Consumption* Donald A. Hurter, 1974 "A Reliable Car and a Woman Who Knows It" Curt McConnell, 2000-09-15 The audacity of driving a horseless carriage from coast to coast in the early years of the 20th century is hard to imagine in an age of superhighways and global positioning systems Roads might be nothing more than muddy ruts made by wagon wheels sources of gasoline or replacement parts were few and agonizingly far between frequent repairs and tire changes were necessary and the traveler was subject to the whole range of nature's perils and discomforts For a woman to attempt the trip was at the time a jaw dropping event Yet in 1909 22 year old Alice Ramsey and three female companions piled into a Maxwell in New York City and 59 days later they triumphantly rolled into San Francisco A few years later silent film star Anita King would become the first woman to make the transcontinental drive solo These and other early coast to coast drives proved women's growing independence as well as the automobile's long distance viability Detailed accounts of five coast to coast drives make up this lively history Drawing from plentiful contemporary newspaper reports and the women's own words author Curt McConnell recounts the bold adventurers experiences day by day and mile by mile
