

## Passage - 3

Open defecation is disastrous when practised in very densely populated areas, where it is impossible to keep away human faeces from crops, wells, food and children's hands. Groundwater is also contaminated by open defecation. Many ingested germs and worms spread diseases. They prevent the body from absorbing calories and nutrients. Nearly one-half of India's children remain malnourished. Lakhs of them die from preventable conditions. Diarrhoea leaves Indians' bodies smaller on average than those of people in some poorer countries where people eat fewer calories. Underweight mothers produce stunted babies prone to sickness who may fail to develop their full cognitive potential. The germs released into environment harm rich and poor alike, even those who use latrines.

3. Which among the following is the **most critical inference** that can be made from the above passage?

- (a) The Central and State governments in India do not have enough resources to afford a latrine for each household.
- (b) Open defecation is the most important public health problem of India.
- (c) Open defecation reduces the human capital of India's workforce.
- (d) Open defecation is a public health problem in all developing countries.

## Passage - 4

We generally talk about democracy but when it comes to any particular thing, we prefer a belonging to our caste or community or religion. So long as we have this kind of temptation, our democracy will remain a phoney kind of democracy. We must be in a position to respect a man as a man and to extend opportunities for development to those who deserve them and not to those who happen to belong to our community or race. This fact of favouritism has been responsible for much discontent and ill-will in our country.

4. Which one of the following statements **best sums up** the above passage?

- (a) Our country has a lot of diversity with its many castes, communities and religions.
- (b) True democracy could be established by providing equal opportunities to all.
- (c) So far none of us have actually understood the meaning of democracy.
- (d) It will never be possible for us to establish truly democratic governance in our country.

## Passage - 5

The existence/establishment of formal financial institutions that offer safe, reliable, and alternative financial instruments is fundamental in mobilising savings. To save, individuals need access to safe and reliable financial institutions, such as banks, and to appropriate financial instruments and reasonable financial incentives. Such access is not always available to all people in developing countries like India and more so, in rural areas. Savings help poor households manage volatility in cash flow, smoothen consumption, and build working capital. Poor households without access to a formal savings mechanism encourage immediate spending temptations.
