Les Grecs Sans Tabac Au Bistrot

Athènes : Plus gros fumeurs en Europe, les Hellènes devront dès le 1^{er} juillet respecter l'interdiction de fumer dans les lieux publics.

Les Grecs, plus gros fumeurs d'Europe, vont devoir à partir du 1^{er} juillet éteindre leur cigarette dans les lieux publics, selon une nouvelle loi qui se veut « plus stricte » que les précédentes. Et à partir du 1^{er} septembre la loi bannira, grande nouveauté, la publicité pour le tabac.

Deuxième pays producteur de tabac d'Europe, la Grèce, avec 42% de fumeurs, déplore 20 000 morts par an en raison du tabac, selon le ministre de la Santé, Dimitris Avramopoulos, qui souligne que les nouvelles mesures visent avant tout

Quaternary Glaciation in the Mediterranean Mountains P.D. Hughes, J.C. Woodward , 2017-01-30 The mountains of the Mediterranean world are now largely ice free but many were repeatedly glaciated during the Quaternary ice age This created spectacular glaciated landscapes with a rich array of glacial deposits and landforms The glacial and glacio fluvial records are often very well preserved and our understanding of the timing of Quaternary glaciation has very recently been transformed through the application of dating methods utilizing uranium series and cosmogenic isotopes Glacial records from the Mediterranean now boast some of the most robust chronologies for mountain glaciation anywhere in the world they represent a unique archive of Quaternary environmental change of global significance The southerly latitude and relatively

small size of Mediterranean glaciers rendered them especially sensitive to Pleistocene and Holocene climate changes This volume brings together the leading researchers and the latest research on Mediterranean glaciation Several papers also explore glacier behaviour in the Holocene including those glaciers of southernmost Europe at risk of disappearing this century

The King and the People Abhishek Kaicker, 2020-02-03 An original exploration of the relationship between the Mughal emperor and his subjects in the space of the Mughal empire's capital The King and the People overturns an axiomatic assumption in the history of premodern South Asia that the urban masses were merely passive objects of rule and remained unable to express collective political aspirations until the coming of colonialism Set in the Mughal capital of Shahjahanabad Delhi from its founding to Nadir Shah's devastating invasion of 1739 this book instead shows how the trends and events in the second half of the seventeenth century inadvertently set the stage for the emergence of the people as actors in a regime which saw them only as the ruled Drawing on a wealth of sources from the seventeenth and eighteenth centuries this book is the first comprehensive account of the dynamic relationship between ruling authority and its urban subjects in an era that until recently was seen as one of only decline By placing ordinary people at the centre of its narrative this wide ranging work offers fresh perspectives on imperial sovereignty on the rise of an urban culture of political satire and on the place of the practices of faith in the work of everyday politics It unveils a formerly invisible urban panorama of soldiers and poets merchants and shoemakers who lived and died in the shadow of the Red Fort during an era of both dizzying turmoil and heady possibilities As much an account of politics and ideas as a history of the city and its people this lively and lucid book will be equally of value for specialists students and lay readers interested in the lives and ambitions of the mass of ordinary inhabitants of India's historic capital three hundred years ago

The Illicit Trade in Art and Antiquities Janet Ulph, Ian Smith, 2012-10-05 This new text provides practical guidance on the modern law relating to cultural objects which have been stolen looted or illegally exported It explains how English criminal law principles including money laundering measures apply to those who deal in cultural objects in a domestic or international setting It discusses the recovery of works of art and antiquities in the English courts where there are competing claims between private individuals or between individuals and the UK Government or a foreign State Significantly this text also provides an exposition of the law where a British law enforcement agency or a foreign law enforcement agency is involved in the course of criminal or civil proceedings in an English court The growth of relevant international instruments which include not only those devoted to the protection of mankind's cultural heritage but also those concerned with money laundering and serious organised crime provide a backdrop to this discussion The UK's ratification of the UNESCO Convention on Means of Prohibiting and Preventing the Illicit Import Export and Transfer of Ownership of Cultural Property 1970 in 2002 is considered The problems posed in attempting to curb trafficking in art and antiquities are explored and the effectiveness of the current law is analysed

Human Law and Computer Law: Comparative Perspectives Mireille Hildebrandt, Jeanne Gaakeer, 2013-05-23 The focus of

this book is on the epistemological and hermeneutic implications of data science and artificial intelligence for democracy and the Rule of Law How do the normative effects of automated decision systems or the interventions of robotic fellow beings compare to the legal effect of written and unwritten law To investigate these questions the book brings together two disciplinary perspectives rarely combined within the framework of one volume One starts from the perspective of code and law and the other develops from the domain of law and literature Integrating original analyses of relevant novels or films the authors discuss how computational technologies challenge traditional forms of legal thought and affect the regulation of human behavior Thus pertinent questions are raised about the theoretical assumptions underlying both scientific and legal practice

Storm of the Sea Matthew R. Bahar, 2019 Wabanaki communities across northeastern North America had been looking to the sea for generations before strangers from the east began arriving there in the sixteenth century *Storm of the Sea* narrates how by the Atlantic's Age of Sail the People of the Dawn were mobilizing the ocean to achieve a dominion governed by its sovereign masters and enriched by its profitable and compliant tributaries

Trust in International Police and Justice Cooperation Saskia Hufnagel, Carole McCartney, 2017-01-26 The use of extra territorial intelligence is growing among security border and public agencies Internationally rapidly evolving efforts to tackle transnational crime entail the exchange of intelligence across jurisdictions and state borders as well as the linking of law enforcement operations This book provides a number of different perspectives from across Europe Australasia and Canada to examine recent cooperation experiences and the challenges faced in practice The book brings together scholars from a range of legal and criminological fields to examine the legal imperatives and social parameters that shape international police and justice cooperation and highlights the importance of both trust and clear legal rules to ensure effective cooperation It focuses on areas where cooperation is now mandated but where significant issues are raised including the international and regional methods of information and intelligence exchange and challenges to human rights protection the coordination of international and regional exchange of evidence such as forensic bioinformation police cooperation in international investigations and the added value of formalising investigative strategies across jurisdictions regionally and internationally and the operation accountability and legitimacy of organisations and institutions of cooperation in law enforcement and specific international policing missions

Bank Politics David Howarth, Scott James, 2022-11-03 The problem of banks being too big to fail was the defining regulatory issue of the global financial crisis However attempts to tackle the problem by separating retail banking from higher risk trading activities known as structural reform proved to be highly divisive and contributed to significant regulatory divergence In this book David Howarth and Scott James explain this variation by examining the politics of bank structural reform across six key jurisdictions the United States the European Union the United Kingdom France Germany and the Netherlands Integrating political economy and public policy approaches they develop a novel comparative financial power framework to analyse how financial industry influence is mediated by two factors first whether bank lobbying

is unified and centralized cooperative financial power or divided and fragmented competitive financial power and second policy makers use of venue shifting to depoliticize contentious policy issues The book explains that the US and UK governments implemented major reforms because the banking industry was divided and faced significant opposition However venue shifting to an independent committee led to durable reform in the UK while political polarization in the US contributed to contested reform By contrast the French and German governments balanced unified bank lobbying and political pressures to act by pursuing limited symbolic reforms the Dutch government deflected the issue through delegation to multiple commissions no reform while political stalemate at the EU level resulted from early venue shifting and concerted pan European bank lobbying The book makes a major contribution to scholarship on the political economy of finance and business power
