Why Service Matters
Raul Pupo,2019-06-20 Why Service Matters is a collection of over fifty essays that Raul Pupo asserts will change the way you think about service What consumers in business education and government receive by way of service has gotten progressively worse over time What is most distressing however is that there does not appear to be any cause for optimism that the shoddy service being dished out to consumers will improve any time soon That is not unless and until leaders come to grips with the fact that service to the customer is grounded in four critical success factors or foundational propositions a leadership that unequivocally believes they are in business first and foremost to serve the customer a strategic planning regimen centered on the customer an ethic of service to guide the organization to always err on behalf of the customer and a competent motivated supported and empowered front line organization

Delivering Quality Service
Valarie A. Zeithaml,2010-05-11 Excellence in customer service is the hallmark of success in service industries and among manufacturers of products that require reliable service But what exactly is excellent service It is the ability to deliver what you promise say the authors but first you must determine what you can promise Building on seven years of research on service quality they construct a model that by balancing a customer s perceptions of the value of a particular service with the customer s need for that service provides brilliant theoretical insight into customer expectations and service delivery For example Florida Power Light has developed a sophisticated computer based lightening tracking system to anticipate where

weather related service interruptions might occur and strategically position crews at these locations to quicken recovery response time Offering a service that customers expect to be available at all times and that they will miss only when the lights go out FPL focuses its energies on matching customer perceptions with potential need Deluxe Corporation America s highly successful check printer regularly exceeds its customers expectations by shipping nearly 95% of all orders by the day after the orders were received Deluxe even put U S Postal Service stations inside its plants to speed up delivery time Customer expectations change over time To anticipate these changes Metropolitan Life Insurance Company regularly monitors the expectations and perceptions of their customers using focus group interviews and the authors 22 item generic SERVQUAL questionnaire which is customized by adding questions covering specific aspects of service they wish to track The authors groundbreaking model which tracks the five attributes of quality service reliability empathy assurance responsiveness and tangibles goes right to the heart of the tendency to overpromise By comparing customer perceptions with expectations the model provides marketing managers with a two part measure of perceived quality that for the first time enables them to segment a market into groups with different service expectations
