Work Hard, Be Hard Jim Horn, 2016-02-18 This book explores the ideological contexts for the creation and spread of No Excuses charter schools. In so doing, *Work Hard Be Hard* focuses closely on the Knowledge Is Power Program (KIPP) charter school chain as the most prominent exemplar for total compliance No Excuses schooling. By way of in-depth interviews, former teachers offer accounts of their No Excuses teaching experiences that have not been heard before and that are not likely to be forgotten soon. *Work Hard Be Hard* also examines the KIPP organization as a manifestation of modern education reform exemplified in the convergence of neoliberal politics and the aggressive activities of the business and philanthropic communities. As an important corollary to the total compliance charter phenomenon, the book explores too the role of Teach for America in supplying the needed manpower and values components required to deal with very high levels of teacher attrition in these schools. *Work Hard Be Hard* goes beyond accounts offered in news features, articles, and interviews that focus on No Excuses charters' high test scores and expanded college opportunities for economically disadvantaged children. In short, the book offers a naturalistic antidote to the high-profile gloss that mass media provides for No Excuses schooling. *Work Hard Be Hard* examines new developments in No Excuses schooling that focus on psychological interventions aimed to alter children's neurological and behavioral schemas in order to affect socio-cultural values and behaviors. Fraught with potential for abuse and misapplication by minimally trained teachers, these cult-like practices are examined and contrasted with more humane strategies that hope to reawaken the virtues of teaching and learning within the expansive confines of the sciences and arts of a truly humane pedagogy. This book will function as a common reader for parent groups or individuals interested in understanding the inner workings and impacts of no-excuses charter schools. Serve as a text for education students for courses in pedagogy, social and cultural foundations of education, education policy, and politics of education. Provide deeper appreciation of social, political, and economic issues and incentives associated with total compliance charter schools. Help to ameliorate an absence of teacher perspectives on teaching in No Excuses charter schools. Assist the general public in understanding the ideological and economic agendas that drive support of total compliance charter schools. Help to educate policy makers and their staffs in cultural and economic facets of corporate education reform that are relevant to political decisions regarding education policy.

The Question of Class in Contemporary Latin American Cinema María Mercedes Vázquez Vázquez, 2020-07-06 The Question of Class in Contemporary Latin American Cinema responds to the renewed interest in class within and outside academia by examining the aesthetics and politics of class in a representative selection of films from the contemporary cinemas of Venezuela, Cuba, Mexico, Brazil and Argentina. It explores the relationship of cinematic practices to conflicting socio-political transformations taking place in these five countries such as the intensification of neoliberalism, the Turn to the Left and the growth of the middle classes in the period from 2003 to 2015. Utilizing a critical comparative method, it sheds a critical light on the presumed depoliticization or new aestheticized politicization of contemporary Latin American cinema. The combined textual and industrial analyses of films from strikingly different cinemas and directors through the lenses of class allows for a contextualization of this trend and the observation of its limitations. Furthermore, this book distinguishes cinematic figurations that correspond to new conceptualizations of class introduced in social studies from figurations of class that have yet to be conceptualized.
