*A Student's Guide to A2 Performance Studies for the OCR Specification* Alistair Conquer, John Pymm, 2005-02      **A Level Further Mathematics for OCR A Statistics Student Book (AS/A Level)** Vesna Kadelburg, Ben Woolley, 2017-12-14 New 2017 Cambridge A Level Maths and Further Maths resources to help students with learning and revision Written for the OCR AS A Level Further Mathematics specification for first teaching from 2017 this print Student Book covers the Statistics content for AS and A Level It balances accessible exposition with a wealth of worked examples exercises and opportunities to test and consolidate learning providing a clear and structured pathway for progressing through the course It is underpinned by a strong pedagogical approach with an emphasis on skills development and the synoptic nature of the course Includes answers to aid independent study      **Forward with Classics** Arlene Holmes-Henderson, Steven Hunt, Mai Musié, 2018-08-09 Despite their removal from England's National Curriculum in 1988 and claims of elitism Latin and Greek are increasingly re-entering the mainstream educational arena Since 2012 there have been more students in state maintained schools in England studying classical subjects than in independent schools and the number of schools offering Classics continues to rise in the state maintained sector The teaching and learning of Latin and Greek is not however confined to the classroom community based learning for adults and children is facilitated in newly established regional Classics hubs in evenings and at weekends in universities as part of outreach and even in parks and in prisons This book investigates the motivations of teachers and learners behind the rise of Classics in the classroom and in communities and explores ways in which knowledge of classical languages is considered valuable for diverse learners in the 21st century The role of classical languages within the English educational policy landscape is examined as new possibilities exist for introducing Latin and Greek into school curricula The state of Classics education internationally is also investigated with case studies presenting the status quo in policy and practice from Australasia North America the rest of Europe and worldwide The priorities for the future of Classics education in these diverse locations are compared and contrasted by the editors who conjecture what strategies are conducive to success      *Mothering by Degrees* Jillian M. Duquaine-Watson, 2017-05-31 In *Mothering by Degrees* Jillian Duquaine Watson shows how single mothers pursuing college degrees must navigate a difficult course as they attempt to reconcile their identities as single moms college students and in many cases employees They also negotiate a balance between what they think a good mother should be and what society is telling them and how that affects their choices to go to college and whether to stay in college or not The first book length study to focus on the lives and experiences of single mothers who are college students *Mothering by Degrees* points out how these women are influenced by dominant American ideologies of motherhood and the institutional parameters of the schools they attend and argues for increased attention to the specific ways in which the choices challenges and opportunities available to mothers are shaped within their specific environments as well as the ways in which mothers help shape those environments      **English Mechanic and World of**
