About Mathematics

Gerald R. Rising,James R. Matthews,Eileen Schoaff,Judith Matthew,2021 Mathematics is an essential component of the educated mind It has two important roles to play as queen of the sciences providing the logical structure that holds science together and as a handmaiden to those sciences carrying out the computations that apply scientific concepts Unfortunately a gulf exists between science and the humanities and our text About Mathematics seeks to bridge that gap to serve humanities students just as humanities texts are offered to inform science students In doing so unlike most math texts we avoid the usual focus on detailed techniques to expose instead some of the important concepts and values of mathematics
