*Advanced Engineering and Technology* Liquan Xie, Dianjian Huang, 2014-03-18 *Advanced Engineering and Technology* contains 110 technical papers from the 2014 Annual Congress on Advanced Engineering and Technology CAET 2014 Hong Kong 19-20 April 2014 including the 4th Workshop on Applied Mechanics and Civil Engineering AMCE 2014. The contributions focus on advanced theories and technologies related to building engineering. *ICPMG2014 - Physical Modelling in Geotechnics* Christophe Gaudin, David White, 2019-01-08 The 8th International Conference on Physical Modelling in Geotechnics ICPMG2014 was organised by the Centre for Offshore Foundation Systems at the University of Western Australia under the auspices of the Technical Committee 104 for Physical Modelling in Geotechnics of the International Society of Soil Mechanics and Geotechnical Engineering. This quadrennial conference is the traditional focal point for the physical modelling community of academics, scientists and engineers to present and exchange the latest developments on a wide range of physical modelling aspects associated with geotechnical engineering. These proceedings together with the seven previous proceedings dating from 1988 present an inestimable collection of the technical and scientific developments and breakthroughs established over the last 25 years. These proceedings include 10 keynote lectures from scientific leaders within the physical modelling community and 160 peer-reviewed papers from 26 countries. They are organised in 14 themes presenting the latest developments in physical modelling technology, modelling techniques and sensors through a wide range of soil-structure interaction problems including shallow and deep foundations, offshore geotechnics, dams and embankments, excavations and retaining structures and slope stability. Fundamental aspects of earthquake engineering, geohazards, ground reinforcements and improvements and soil properties and behaviour are also covered, demonstrating the increasing complexity of modelling arising from state-of-the-art technological developments and increased understanding of similitude principles. A special theme on education presents the latest developments in the use of physical modelling techniques for instructing undergraduate and postgraduate students in geotechnical engineering. *Concrete Permeability and Durability Performance* Roberto J. Torrent, Rui D. Neves, Kei-ichi Imamoto, 2021-12-22 Durability and service life design of concrete constructions have considerable socio-economic and environmental consequences in which the permeability of concrete to aggressive intruders plays a vital role. *Concrete Permeability and Durability Performance* provides deep insight into the permeability of concrete moving from theory to practice and presents over 20 real cases such as Tokyo's Museum of Western Art, Port of Miami Tunnel and Hong Kong-Zhuhai-Macao sea link including field tests in the Antarctic and Atacama Desert. It stresses the importance of site testing for a realistic durability assessment and details the Torrent Method for non-destructive measurement of air permeability. It also delivers answers for some vexing questions: Should the coefficient of permeability be expressed in  $m^2$  or  $m/s$ ? How to get a mean pore radius of concrete from gas permeability tests? Why should permeability preferably be measured on site? How can service life of reinforced concrete structures be predicted by site

testing of gas permeability and cover thickness Practitioners will find stimulating examples on how to predict the coming service life of new structures and the remaining life of existing structures based on site testing of air permeability and cover thickness Researchers will value theoretical principles testing methods as well as how test results reflect the influence of concrete mix composition and processing      **U.S. Government Research & Development Reports** ,1969-10      [Index to IEEE Publications](#) Institute of Electrical and Electronics Engineers,1980 Issues for 1973 cover the entire IEEE technical literature      *Government Reports Announcements & Index* ,1991-04      **Government Reports Announcements** ,1969
