L'invention Du Paysage:

L'invention du paysage Anne Cauquelin, 2004 La notion de paysage et d'architecture dont bien une invention un objet culturel d'aujourd'hui ayant sa fonction propre qui est de rassurer en permanence les cadres de la perception du temps et de l'espace Cette enquête philosophique sur la laboration pour nous Occidentaux de la notion de paysage part d'un constat surprenant c'est qu'il n'y a chez les Grecs anciens ni mot ni chose ressemblant de près ou de loin ce que nous appelons paysage Du Jardin d'Épicure à la sagesse d'une vieillesse le paysage d'aujourd'hui limite un cadre de vision Il a été pensé et construit comme équivalent de la nature et ainsi nous aurions grâce au paysage un regard vrai sur les propriétés de la nature Mais quel travail faisons nous quand nous voyons un paysage **Le paysage, "fenêtre ouverte" sur le roman** Aurélie Gendrat-Claudé, 2007 L'invention du paysage Bas Smets, 2016

Les paysages médiévaux du Languedoc Aline Durand, 2003 Historienne et archéologue Aline Durand fait parler aussi bien les textes que les charbons de bois retrouvés dans les fouilles pour raconter les paysages médiévaux du Languedoc elle nous montre combien dans la genèse de l'espace rural la phase médiévale notamment la période du Xe au XIIe siècle a été décisive Terra Incognita Alain Corbin, 2021-06-15 Identifying gaps in knowledge is the first duty of any historian who sets out to understand the past It is impossible fully to understand our forebears without some idea of what they did not know the history of ignorance is an indispensable part of history itself Here Alain Corbin focuses on our planet exploring its mysteries past and present and the intensity and eventual decline of the modes of terror and wonder it aroused For thousands of years humans knew nearly nothing about the earth Certain locations on the map simply read Terra Incognita Corbin recounts the many errors and uncertainties that littered the paths we followed in the attempt to discover the secrets of our blue planet with a particular focus on the eighteenth and nineteenth centuries when the mysteries of volcanoes the polar regions glaciers the stratosphere and the oceans began to be uncovered While ignorance stimulated our ancestors' imagination Corbin's history of ignorance reawakens our thirst for knowledge and changes our view of the world *La théorie du paysage en France, 1974-1994* Alain Roger, 1995 Cette Anthologie rassemble quelques unes des contributions que les meilleurs spécialistes français géographes agronomes écrivains sociologues paysagistes plasticiens philosophes etc ont apportées depuis vingt ans à la théorie du Paysage Elle témoigne de la diversité de leurs préoccupations de la richesse de leurs propositions de la virulence aussi des polémiques qui les ont parfois divisés et elle souhaite fournir cet ouvrage un document objectif et vivant tous ceux pour qui le Paysage n'est pas seulement l'objet d'une protection mais un des lieux privilégiés de l'invention et de la création **L'arbre dans le paysage** Jean Mottet, 2002 En transformant certains lieux en paysages de dissolution les tempêtes de 1999 ont branlé la symbolique de stabilité de l'arbre dans l'imaginaire et modifié le rapport de l'homme à la nature Une interprétation des représentations de l'arbre dans le cinéma la peinture et la photographie est proposée Des mots de paysage et de jardin Pierre Donadieu, 2002 Ce dictionnaire ne cherche pas à borner ou normaliser les langages des différents groupes

Constructing Gardens, Cultivating the City Amanda Shoaf Vincent, 2023-05-16 Constructing Gardens Cultivating the City is the first cultural history of major new parks developed in Paris in the late twentieth century as part of the city s program of adaptive reuse of industrial spaces Thanks to laws that gave the city more political autonomy Paris s local government launched a campaign of park creation in the late 1970s that continued to the turn of the millennium The parks in this book represent this campaign and illustrate different facets of their cultural and historical context Archival research interviews and analyses of the parks reveal how postmodern debates about urban planning the historic city public space and nature s presence in an urban setting influenced their designs In sum the city adopted the garden as a model for public parks investing in complex richly symbolic and representational spaces These parks were intended to represent contemporary twists on traditional designs and serve local residents as much as they would contribute to Paris s role as a world city The parks development process often included points of conflict pointing to differing views on what Parisian space should represent and fundamental contradictions between the characteristics of public space and the garden as it is traditionally defined These parks demonstrate the ongoing cultivation of the city over time in which transformed sites not only fulfil new functions but also engage with history and their surroundings to create new meaning They stand for landscape as a form of signifying cultural production that directly engages with other art forms and ways of knowing Just as the Luxembourg Gardens the Tuileries and the Buttes Chaumont parks exemplify their eras cultural dynamics such parks as the Jardin Atlantique Parc Andr Citro n and the Jardin des Halles express contemporary French culture within the archetypal space of their era the city Finally they point the way to current trends in landscape architecture such as citizen gardening and ecological initiatives

Landscapes as Cultural Heritage in the European Research María Ruiz del Árbol Moro, María Ruíz del Árbol, Almudena Orejas Saco del Valle, 2005 El objetivo principal de la acci n COST A27 es la identificaci n y evaluaci n de elementos y estructuras preindustriales en los paisajes europeos amenazados por el abandono de actividades mineras y agrarias tradicionales El coloquio sobre los paisajes como patrimonio cultural en la investigaci n europea constituy un primer punto de encuentro tanto para los investigadores implicados en la acci n como para otros expertos externos Los textos recogidos en esta publicaci n muestran el creciente inter s por el tomo por la recuperaci n de los paisajes como una parte esencial del patrimonio cultural y por las nuevas v as para su puesta en valor promoci n y gesti n en el marco global de la planificaci n territorial

Pierce, 2012-01-01 *Scapeland* Writing the Landscape from Diderot's Salons to the Postmodern Museum is a comparative interdisciplinary study tracing theories of the sublime and a history of spectatorship from Diderot's eighteenth century French Salons through art criticism by Baudelaire and Breton to Jean François Lyotard's postmodern exhibition *Les Immatériaux* In the Salons an exploration of the painted landscape becomes an encounter with both the limits of representation and the infinite possibilities of fiction Baudelaire and Breton explore similar limits in their work set against the backdrop of the modern city For them as for Diderot the attempt to render visual objects in narrative language leads to the development of new literary forms and concerns Lyotard's concept of the postmodern museum frames the sublime encounter once again in terms that expressly evoke Diderot's verbal rendering of painted spaces as a personal promenade According to Lyotard Diderot ouvre par critique les surfaces des tableaux comme les portes d'une exposition il abolit l'opposition de la nature et de la culture de la réalité de l'image du volume et de la surface Reading the literary production of these four writers alongside their art criticism *Scapeland* considers narrative responses to art as imaginative assertions of human presence against the impersonal world of objects *Urban Interstices: The Aesthetics and the Politics of the In-between* Dr Andrea Mubi Brighenti, 2013-12-28 Bringing together a team of international scholars with an interest in urban transformations spatial justice and territoriality this volume questions how the interstice is related to the emerging processes of partitioning enclave making and zoning showing how in between spaces are intimately related to larger flows networks territories and boundaries Illustrated with a range of case studies from places such as the US Quebec the UK Italy Gaza Iraq India and South east Asia the volume analyses the place and function of interstitial locales in both a disciplined urban space and a disordered space conceptualized through the notions of excess danger and threat Warning not
