Figure 35—364 Lumber Loader Layout

No. 364 Lumber Loader and No. 397 Coal Loader are two new operating accessories that do not require any special track layout but can be located along any straight stretch of track, as shown in Figures 35 and 36. A Remote Control Section of track is placed in front of the accessories in such a way that operating lumber or coal cars can be unloaded into the receiving bins. Both the Lumber and the Coal Loaders are provided with conveyor belts which carry the material from these bins and reload it into the waiting empties. Note that in the case of the Coal Loader the coal car is loaded and unloaded from the same position on the Remote Control Section, while in the case of the Lumber Loader the empty car must be moved over to the loading station in order to be reloaded. Adjust the location of the accessories until you obtain good loading and unloading action.

The conveyor belts in both the Lumber and the Coal Loaders are started and stopped by means of the 364C Controller which is connected to accessory binding posts as shown. Both accessories operate on 12-14 volts.

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and gripping novel that will keep you wondering until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
