## Liquidation Gold Amazon:

Kumar,2024-03-15 Amazon and Walmart with more than half a trillion in revenues annually are the two largest companies in the world They have not only redefined the retail industry Walmart in the 1980s 1990s and Amazon since 2000 but have also been the benchmark for business best practices e g the use of IT supply chain data analytics customer orientation This year it is anticipated that Amazon will dethrone Walmart as the world s largest company a position that Walmart has occupied for more than two decades By examining these two companies and their business models in depth Professor Nirmalya Kumar elucidates on the more general phenomenon of incumbents competing with disruptors e g Volkswagen vs Tesla Marriott vs Airbnb as well as the move to omnichannel retail where physical stores must coexist with online retailers *Panama to Patagonia: The Isthmian Canal and the West Coast Countries of South America* Charles Melville Pepper,1860-01-01 THE effect of the Panama Canal on the West Coast industrial development and the reciprocal influence of this South American progress on the waterway are economic facts The citizen of the United States who would know the subject in a wider range than the mere gratification of his patriotic impulses and his national pride should turn to the study of commercial geography the potential political economy of unexploited natural resources The European statesman jealously watchful of trade conditions in the New World and the causes which modify them will follow these channels without suggestion Whether the

digging of the Canal take ten fifteen or twenty years does not affect its industrial value The Spanish American with his inherited inertia and his lack of initiative in waiting for to morrow would be content if the work consumed half a century What Humboldt prophesied of the Southern Continent as the seat of future civilization what Agassiz predicted of the Andean and the Amazon populations he is sure now will be realized He even reverts to his favorite method of comparing the square miles of Belgium with the square miles of his own South American country whichever one it may be and exhibits the latter s possibilities for the human race by explaining the number of people it can sustain when it shall have as many inhabitants to the square mile as has Belgium Yet while he believes that the destiny of the Southern Continent is at the threshold of realization Yankee impatience only would amuse him Since the interoceanic waterway and all its benefits are to be what matter a few years Time says the Castilian proverb is the element This philosophic Latin view may serve as a curb to fault finding if the construction work on the Canal seems to halt while the engineering obstacles are studied and experiments are made in order to determine the best means to overcome them But though the Spanish American who is of the race that controls the West Coast countries of South America is patient in his waiting for ultimate results he does not fail to grasp the immediate effect All the processes of the economic evolution unroll before his mental vision For Colombia Ecuador Peru Chile and Bolivia the standard already has been set and the goal towards which they must work has been fixed Their national policies and their commercial and industrial growth at once come under the stimulus of the waterway The Panama Canal said the leader of public thought in one of the Republics will precipitate our commercial evolution It is the spring from which will gush the streams of immigration
