

EARTH DAY

Earth Day

Earth Day is a special day that we celebrate every year on April 22nd. It is a day to think about how we can take care of our planet, Earth. Earth is the only planet we have, and it is our home. We need to take care of it so that we can live here for many years to come.

Earth Day was first celebrated in 1970. A man named Gaylord Nelson was the one who came up with the idea. He wanted people to think more about the environment and how we can make it better. He wanted people to learn about pollution and what we can do to stop it.

Earth Day is a day to learn about the things that we can do to help our planet. We can recycle things like paper, plastic, and glass. We can also use energy-saving light bulbs and turn off the lights when we leave a room. We can use reusable bags instead of plastic bags when we go shopping. And we can walk or ride our bikes instead of driving, which can reduce the amount of pollution in the air.

Another way we can help our planet is by taking care of the animals and plants that live here. We can plant trees, and protect the forests. We can also be careful when we are fishing and hunting so that we don't take too many animals. And we can try not to use chemicals that can hurt animals and plants.

Earth Day is a day when we can all come together and think about how we can take care of our planet. It's a day to learn about the things that we can do to make the Earth a better place. And it's a day to remind ourselves that we all have a responsibility to take care of our home - Earth. So let's celebrate Earth Day and make sure that we do our part to keep our planet clean and healthy for many years to come!
