Romeo and Juliet

Read the following extract from Act 1 Scene 1 of Romeo and Juliet and then answer the question that follows.

At this point in the play, the Prince has arrived to stop the fight that has broken out in the centre of Verona.

PRINCE Rebellious subjects, enemies to peace,
 Profaners of this neighbour-stained steel –
 Will they not hear? – What ho, you men, you beasts!
 That quench the fire of your pemicious rage
 With purple fountains issuing from your veins;
 On pain of torture, from those bloody hands
 Throw your mistempered weapons to the ground,
 And hear the sentence of your moved prince.
 Three civil brawls, bred of an airy word,
 By thee, old Capulet, and Montague,
 Have thrice disturbed the quiet of our streets,
 And made Verona's ancient citizens
 Cast by their grave beseeching ornaments
 To wield old partisans, in hands as old,
 Cankered with peace, to part your cankered hate;
If ever you disturb our streets again,
Your lives shall pay the forfeit of the peace.
 For this time all the rest depart away:
 You, Capulet, shall go along with me,
 And, Montague, come you this afternoon,
 To know our farther pleasure in this case,
 To old Free-town, our common judgement-place.
 Once more, on pain of death, all men depart.

established themselves into nearby foreign sales markets The findings of this licentiate thesis suggest that logistics plays both a reactive and a proactive supporting role during the early stage of retail internationalisation The reactive supporting role refers to logistics that adapts to predetermined conditions set by the retail company s top management team As a reactive supporter the logistics organisation is typically involved at an operational level and scales up its logistics operations in order to supply multiple markets Beyond its reactive role logistics can also play a proactive supporting role This refers to its involvement at a strategic level within the retail company where it can influence the conditions of retail internationalisation When logistics is involved more proactively its operations can become better aligned with the other company operations involved in retail internationalisation Furthermore proactive logistics support enables more efficient and effective logistics that can better cope with increased complexity as well as more effectively keeping track of logistics costs In addition to these findings the importance of top management has been identified as a key aspect of proactive logistics support More specifically logistics competence within the top management team enables logistics to be prioritised at a strategic level and to be better integrated during retail internationalisation including during individual establishments into new markets The findings also suggest that the importance of logistics increases over time during retail internationalisation The more markets the retailer enters the more important efficient logistics becomes in order to deal with both complexity and logistics costs By involving proactive logistics from the start of retail internationalisation retail chains can more efficiently and effectively establish into and operate within foreign sales markets which in turn supports a sustainable retail internationalisation One of the main academic contributions of this licentiate thesis has been to study logistics in the specific context of retail internationalisation which has previously not been researched in any great detail In addition logistics has often been studied as a static aspect but in this thesis it is studied from a dynamic perspective in order to understand how its supporting role changes over time during the early stage of retail internationalisation Another important contribution is that the role of logistics has been studied from both a strategic and an operational level as previous research has mostly focused on the strategic level of logistics related to retail internationalisation In terms of practical contributions this licentiate thesis clarifies the logistics characteristics and supply chain capabilities that support the early stage of retail internationalisation This licentiate thesis can also help practitioners to better prepare their logistics organisation and logistics operations for a future retail internationalisation as well as helping them to avoid making logistical mistakes during the early stage of retail internationalisation
