Other assumptions

Best estimate assumptions are set for inflation, mortality, expenses and persistency. The future expense inflation assumption is modelled as RPI (2011: RPI + 0.7%).

Options and guarantees

There are no significant options and guarantees in the non-participating business.

iii) Investment and long-term linked insurance contracts

The provision for unit linked pensions is equal to the value of the assets to which the contracts are linked. There is one product included within the linked fund which is classified as an investment product and the liability is included within the long-term linked insurance contract liabilities.

The provision for property-linked liabilities is equal to the value of the assets to which the contracts are linked and is included within investment contract liabilities.

The provisions for index-linked permanent health insurance claims and index-linked temporary assurances have been calculated using the same mortality and morbidity assumptions as used for the corresponding non-linked liabilities for both 2012 and 2011.
