Design experience is the power shift to our era, what mass marketing was to the last century. John Sculley, former CEO of Pepsi and Apple. Great design is about creating a deep relationship with your customers. If you don't, you're roadkill. This book shows you how, and much, much more. Be prepared to have your mind blown. Bill Burnett, Executive Director, Design Program, Stanford University. Design is the last great differentiator, and yet so few really understand it. *Do You Matter?* offers a marvelous series of direct-in-your-face observations and drives home the means to an absolutely integrated design strategy. Ray Riley, Design, GM Entertainment and Devices, Microsoft. This book will challenge you to ask and answer what arguably are the most important questions an executive can ponder today. So open up. Noah Kerner, CEO, Noise and coauthor. Chasing Cool. More and more companies are coming to understand the competitive advantage offered by outstanding design. With this, you can create products, services, and experiences that truly matter to your customers' lives and thereby drive powerful, sustainable improvements in business performance. But delivering great designs is not easy. Many companies accomplish it once or twice; few do it consistently. The secret: building a truly design-driven business in which design is central to everything you do. *Do You Matter?* shows how to do precisely that. Legendary industrial designer Robert Brunner, who laid the groundwork for Apple's brilliant design language, and Stewart Emery. *Success Built to Last* begins by making an incontrovertible case for the power of design in making emotional connections, deepening relationships, and strengthening brands. You'll learn what it really means to be design-driven and how that translates into action at Nike, Apple, BMW, and IKEA. You'll learn design-driven techniques for managing your entire experience chain, define effective design strategies and languages, and learn how to manage design from the top, encouraging risky design innovations that lead to entirely new markets. The authors show how and how not to use research, how to extend design values into marketing, manufacturing, and beyond, and how to keep building on your progress, truly baking design into all your processes and culture.
