Cannabis Sativa S. T. Oner, 2012 Cannabis plants are classified into two main groups Indica and Sativa This book focuses on Cannabis Sativa an especially tall and potent species of marijuana plant that true connoisseurs love not only for its smoke that induces a desire to create art and socialize with people but also for the interesting challenges it presents to growers due to its size No other strain guide has looked at Cannabis Sativa in such depth before and the fan base established by the previous best selling book Cannabis Indica is eagerly awaiting the release of this new title Featuring one hundred strains of amazing Sativa dominant genetics from one hundred of the world's best marijuana breeders this book is a must have for pot enthusiasts pot growers and pot connoisseurs new and old alike Cannabis Sativa features one hundred incredible strains from one hundred different seed breeders more than all other cannabis strain guides put together and strains from such varied countries as Britain Holland Canada Russia Spain Chile Switzerland Germany France Afghanistan Pakistan India and throughout the USA No other guide features this many emerging seed breeders as well as established cannabis genetics companies The Cannabis Sativa and Cannabis Indica series of books are set to become the go to books for connoisseurs and growers looking to expand their knowledge about the plant and the genetics in their gardens Features classic Sativa strains such as Grapefruit New York City Diesel AK 47 and Santa Maria as well as fascinating brand new never before seen varieties from previously unknown seed breeders This book also features multiple strain variations on Haze the strain of choice for connoisseur breeders and smokers and a favorite amongst medicinal users throughout the USA Filled with hundreds of beautiful full color images this book is ideal for every grow room dorm room and living room Each plant is discussed in detail with accurate information on genetics and lineage so that readers can become experts on Cannabis Sativa strains their aromas flavors THC content medical potentials and growth patterns Cannabis Sativa is a true resource for the Cannabis community providing useful information to enthusiasts and invaluable insights to the seed buying and pot smoking public Unlike its competitor The Big Book of Buds which features a mere thirty companies that pay to be included and over twenty pages of advertisements this book is a true reflection of the global marijuana seed breeding movement Strains were selected based on their relevance to the current market and the strength of their genetics There are no advertisements in the book and no one paid to be included Chief editor bestselling author S T Oner carefully selected all strains based on merit not advertising dollars This grassroots philosophy has resulted in the previous release in this series Cannabis Indica gaining much attention and praise as well as consistent sales With an introduction by Greg Green the bestselling author of The Cannabis Grow Bible focusing on the history and origins of the Cannabis Sativa plant as well as its growth patterns genetic tendencies breeding potential and smokeability this book is every true cannabis enthusiast's dream **The Ultimate Medical Marijuana Strain Reference and Growing Guide for Pain Relief** Michael Blood, 2017-08-27 1 BEST SELLER Nearly everyone is now aware that Marijuana has significant medical value What most do not realize is that different strains

have profoundly different effects that this or that strain may be remarkable at healing arthritis other strains will do little or nothing for Indeed many conditions will actually be exacerbated by some strains For instance most people think Pot makes you hungry and while a majority of strains are excellent for people needing to gain weight there are actually several strains that SUPPRESS appetite They are excellent for weight loss Another blatant example is anxiety while there are many strains that dramatically decrease anxiety there are many many others that worsen it This is true down the line with most conditions This work represents over two years of research reading nearly every book on the subject of Medical Marijuana and visiting hundreds of on line sites on the topic The largest number of conditions I ever found listed in once cite was 30 This book lists over 120 Conditions crossreferenced with over 500 different Strains With each strain to the extent the information is available ANYWHERE you are informed of its type Cannabis sativa or Cannabis indica or in the case of hybrids most strains are hybrids of the two the percentage of each the THC% the CBD% the parent strains the original breeder the taste smell any specific growing needs and characteristics the flowering time from 28 days from seed to harvest to up to 20 weeks of flowering AFTER initial growth and the expected bud weight at harvest 38 grams to over 9 Kilograms Whether you have Arthritis Migraines Hyperhidrosis Cancer and all the problems with chemo PTSD or any one of the over 120 conditions listed Including over 60 strains for sexual arousal alone this is a MUST HAVE BOOK Additionally if you are considering growing this is essential and again a must haveBook

Cannabis Chris Duvall, 2014-11-15 Thanks to its best known use any mention of cannabis tends to bring up jokes about the munchies or debates about marijuana and legalized drug use But this not so innocent flowering plant was one of the first to be domesticated by humans and it has been used in spiritual therapeutic and even punitive applications ever since in addition to its more recreational purpose Despite all the hoopla surrounding cannabis however we actually understand relatively little about it in the human and ecological past In Cannabis Chris Duvall explores the botanical and cultural history of one of our most widely distributed crops presenting an even handed look at this heady little plant Providing a global historical geography of cannabis Duvall discusses the manufacture of hemp and its role in rope making clothing and paper as well as cannabis s use as oil and fuel His focus though is on its most prevalent use as a psychoactive drug Without advocating for either the prohibition or legalization of the drug Duvall analyzes a wide range of works to offer a better understanding of both stances and moreover the diversity of human cannabis relationships across the world In doing so he corrects the overly simplistic portrayals of cannabis that have dominated discourse on the subject arguing that we need to understand the big picture in order to improve how the plant is managed worldwide Richly illustrated and highly accessible Cannabis is an essential read to understand the rapidly evolving debate over the legalization of marijuana in the United States and other countries
