Weiss, 2002 Weiss Introductory Statistics is intended for a one or two semester introductory statistics course Students learn the core statistical concepts in an applied setting and can access more advanced topics multiple regression ANOVA and Experimental Design through chapters available on the WeissStat CD With advances in technology and new insights into the practice of teaching statistics the sixth edition can now easily fit the organization and pace of various course syllabi and technologies in use The book offers a flexible organization of content and has a more diversified emphasis on using technology such as Minitab the TI 83 Plus graphing calculator Excel and the Internet to investigate statistical problems NEW All New Design We have redesigned the text and now feature a four color format for improved readability and understanding NEW What Does It Mean This feature which appears throughout the book presents the meaning and significance of the statistical results in plain everyday language and emphasizes the importance of interpretation NEW Technology Coverage Students are introduced to technology at the section level with Minitab Excel and the TI 83 Plus      *Algebra and Trigonometry* Marvin A. Bittinger, Judith A. Beecher, David J. Ellenbogen, Judith A. Penna, 2006 With a visual graphical approach that emphasizes connections among concepts this text helps students make the most of their study time The authors show how different mathematical ideas are tied together through their zeros solutions and x intercepts theme side by side algebraic and graphical solutions calculator screens and examples and exercises By continually reinforcing the connections among various mathematical concepts as well as different solution methods the authors lead students to the ultimate goal of mastery and success in class      **Algebra 2** Margaret L. Lial, John Hornsby, Terry McGinnis, 2005-08      Intermediate Algebra George Woodbury, 2008 Empower your Students for Success George Woodbury s Algebra Series empowers students for future success in college level math courses through its early and often approach to functions and graphing integrated study strategies and quality exercise sets that encourage true conceptual understanding The early and often approach to functions helps students prepare for future math courses A Study Skill Strategy is introduced in each chapter opener and then expanded upon throughout the chapter in the Building Your Study Strategy boxes that appear before each exercise set Students can further develop their study skills with the Study Skills Workbook written by Alan Bass to accompany the Woodbury texts Vocabulary Exercises begin each section of exercises and check student understanding of the basic vocabulary presented in the preceding section      Intermediate

Algebra with Applications and Visualization Gary K. Rockswold, Terry A. Krieger, 2009 KEY MESSAGE Gary Rockswold and Terry Krieger focus on teaching algebra in context giving readers realistic and convincing answers to the perennial question When will I ever use this The authors consistent use of real data graphs and tables throughout the examples and exercise sets gives meaning to the numbers and equations as readers encounter them This new edition further enhances Rockswold and Krieger's focus on math in the real world with new features and updated applications to engage today's readers KEY TOPICS Real Numbers and Algebra Linear Functions and Models Linear Equations and Inequalities Systems of Linear Equations Polynomial Expressions and Functions Rational Expressions and Functions Radical Expressions and Functions Quadratic Functions and Equations Exponential and Logarithmic Functions Conic Sections Sequences and Series MARKET For all readers interested in algebra Mathematical Reasoning for Elementary Teachers Calvin T. Long, Duane W. DeTemple, Richard S. Millman, 2009 The Fifth Edition of Mathematical Reasoning for Elementary Teachers with new co author Richard Millman focuses on mathematical knowledge needed for teaching demonstrating why future teachers are learning math content as well as when they will use it in the classroom One of the most important aspects of teaching is being able to explain why students methods and ideas are either right or wrong Imparting this skill to future teachers the emphasis of this fantastic text **Elementary Algebra with Early Systems of Equations** Tom Carson, Ellyn Gillespie, 2005-02 Tom Carson engages students in the learning process by meeting them where they are and leading them to where they need to be through the determination of their individual learning style the development of study skills and the integration of learning strategies that help each student succeed Elementary Algebra with Early Systems of Equations is a book for the student The authors goal is to help build students confidence their understanding and appreciation of math and their basic skills by presenting an extremely user friendly text that models a framework in which students can succeed Unfortunately students who place into developmental math courses often struggle with math anxiety due to bad experiences in past math courses Developmental math students often have never developed nor applied a study system in mathematics To address these needs the authors have framed three goals for Elementary Algebra 1 reduce math anxiety 2 teach for understanding and 3 foster critical thinking and enthusiasm The authors writing style is extremely student friendly They talk to students in their own language and walk them through the concepts explaining not only how to do the math but also why it works and where it comes from rather than using the monkey see monkey do approach that some books take Elementary Algebra with Early Systems of Equations as the title implies places the topic of Systems of Equations early in the text in Chapter 5 This organization is ideal for those instructors who prefer to teach systems of equations immediately following the chapter on graphing and the chapters prior to polynomials and factoring For those who prefer to teach the topic later Elementary Algebra by the same author team places Systems of Equations in Chapter 8 Foundations of Algebra Solving Linear Equations and Inequalities Problem Solving Graphing Linear Equations and Inequalities Systems of Equations Polynomials Factoring
