This book will be indispensable reading for all nursing and healthcare students and practitioners who want to improve the quality of life for older people      **Oxford Textbook of Inpatient Psychiatry** Alvaro Barrera, Caroline Attard, Rob Chaplin, 2019-05-28 Inpatient mental health care is an essential part of community based mental health care in the UK Patients admitted to acute mental health wards are often experiencing high levels of distress and acute mental illness and need to be assessed managed and treated by a wide team of mental health care professionals Inpatient care is often a traumatic experience for patients and their relatives which can define their relationship with mental health care services Reforming inpatient psychiatry is a priority for both patients and staff yet there are few reference texts on this psychiatric specialty The Oxford Textbook of Inpatient Psychiatry bridges this gap by offering a comprehensive and pragmatic guide to the UK's inpatient mental health care system today Written and edited by a multidisciplinary team this innovative resource discusses the real life experiences and challenges of a wide range of professionals working on acute mental health wards Organized into 8 sections this resource covers nursing team leadership multidisciplinary work psychology and medical aspects Individual chapters address key topics such as the management of children and adolescents and contain information on up to date research and best practice Focusing on the dignity and autonomy of patients this unique resource offers a model for clinical and organizational practice both at a national and international level      **Key Themes in Health and Social Care** Adam Barnard, Verusca Calabria, Louise Griffiths, 2023-04-10 This revised and expanded second edition of Key Themes in Health and Social Care is a learning resource for students in health and social care It provides an overview of foundational issues and core themes in the field and introduces key areas of debate moving from an introductory level to in depth discussion as the book progresses Divided into three parts the first part sets the scene addressing introductory psychology and sociology social policy equality and diversity skills for practice and working with people the second part considers key themes such as mental health and wellbeing management of services the relationship between place and wellbeing research in health and social care and person centred interventions the third part looks at discrete areas of practice such as mental health ageing leading and managing health and social care working with vulnerable populations and health promotion Each chapter begins with an outline of the content and learning outcomes and includes reflective exercises to allow students to reflect on what they have read review their learning and consolidate their understanding Time pressed readers wanting to dip into the book for relevant areas can do so but read from cover to cover the book provides a comprehensive introduction to the key areas of contemporary health and social care practice It will be particularly helpful for students undertaking health and social care undergraduate and foundation degrees      **Practical Social Work Ethics** Lorraine Green, Malcolm Carey, 2017-03-02 This is the first text of its kind to deal exclusively with applied social work ethics It focuses on an eclectic mix of difficult moral questions or issues encountered in much modern day practice It is therefore not theoretically driven with some practical elements attached but is instead is a practice based book where any theory

introduced is linked to tangible practice situations. It is also thought provoking, controversial in parts and always engaging. The book is divided into three key sections each introduced by the editors: Past and Present Moral Practices with Children and Families; Ethical Tensions; Ambivalent Ethics; and Adult Social Work Contesting Modernisation. Each section covers a range of topics and poses difficult questions which link to ethical dilemmas or anxieties. These are attached to themes such as whether culturally sensitive social work is always a good thing; the implications of secrets and silence within inter-generational families; or the use of Controlled Treatment Orders or medical and social models within mental health social work. Other chapters ask whether the many forms of user/carer participation within social work education or practice are ethically viable; explore the moral paradoxes which emerge when vested financial interest sometimes appear to eclipse users' interests; examine the implications of avoiding or uncritically deploying touch in social work care; or consider the many moral implications of institutional abuse within social work. With a focussed and clear writing style, this book will be of interest to all social work students and practitioners interested in the practical yet complex moral ramifications of their applied role.

images     Care Trajectory Management for Nurses - E-Book Davina Allen, 2024-01-23 Care trajectory management refers to the work that nurses do to coordinate and organise patient care. It is a relatively unseen element of the nursing role that is absolutely vital for patient safety and quality care. Care Trajectory Management for Nurses is the first ever textbook of its kind for nurse educators, practice facilitators and policy makers as well as undergraduate nurses. It is both a theoretical and practical resource covering the concepts and theories around the organisational components of nursing practice derived from the research of nurse academic Davina Allen. This excellent book will help prepare nurses to be the glue in increasingly complex healthcare systems and provides an excellent foundation for embedding this important subject into student curricula. The first textbook of its kind, a valuable resource for both experienced nurses and undergraduates. Evidence based, derived from research led by the author. Covers: The history of nursing, professional development, Professional identity, Healthcare quality and safety, Healthcare systems, Managing complexity, Care coordination, Tacit knowledge, Nursing theory, Organising work, Care Trajectory Management Framework, Translational mobilisation theory. Illustrative case studies based on observational studies bring theory to life. Exercises, quick quizzes and reflective practice help to apply learning. Online downloadable workbooks to organise learning.
