Arin Keeble, 2014-06-04 This is a comprehensive study of the first decade of literary representations of 9/11 moving from Art Spiegelman's *In the Shadow of No Towers* 2003 to Amy Waldman's *The Submission* 2012 It traces the way literature has dealt with an event that continues to shape world conflict and resonate prominently in the American imagination and argues that the corpus of literary fiction discussing 9/11 is characterized by a fundamental sense of conflictedness related to the tensions between trauma or mourning and political imperatives The work offers in depth analyses of texts that have historicized 9/11 and shaped the way we understand this key moment in American and world history

**What Is Nostalgia,**

## **How People Can Experience Nostalgia, How Nostalgia Influences Customer Purchasing Decisions, And Why Companies Should Produce Modernized Nostalgic Products That Are Derived From Mass Media Franchises Dr. Harrison Sachs,2024-10-19**

This essay sheds light on what is nostalgia explicates how people can experience nostalgia elucidates how nostalgia influences customer purchasing decisions and expounds upon why companies should produce modernized nostalgic products that are derived from mass media franchises Succinctly stated nostalgia is a term that refers to a wistful desire to return in thought to a former time When people experience nostalgia they experience a sentimental yearning to re experience the euphoria that they experienced in a former time A person who for instance revels in going on cruise vacations may experience nostalgia for his favorite past cruise vacation experiences when he reminisces about his favorite past cruise vacation experiences that have elapsed A person who for instance revels in playing dodgeball may experience nostalgia for his favorite past exhilarating dodgeball sessions when he reminisces about his favorite past exhilarating dodgeball sessions that have elapsed A person who for instance revels in watching entertaining movies may experience nostalgia for his favorite past entertaining movie watching sessions when he reminisces about his favorite past movie watching sessions that have elapsed A person who for instance revels in watch engrossing anime series may experience nostalgia for his favorite past engrossing anime series watch sessions when he reminisces about his favorite past engrossing anime series watching sessions that have elapsed A person who for instance revels in playing enthralling video games may experience nostalgia for his favorite past enthralling video game gameplay sessions when he reminisces about his favorite past enthralling video game gameplay sessions that have elapsed People experience nostalgia primarily because certain euphoria inducing experiences of their past trump the experiences in their present in terms of their euphoria inducing value All people are apt to experience at least some euphoria inducing experiences in their lifetimes This is because people are capable of creating the requisite conditions to educe euphoria inducing experiences in their lifetimes Creating the requisite conditions to educe euphoria inducing experience does not need to be a convoluted process to undergo Creating the requisite conditions to educe a euphoria inducing experience can for instance be something as simple as utilizing your smartphone to play cover song videos on social media platforms that you relish listening to There are ample ways that people can experience nostalgia A precursor to experiencing nostalgia is creating the requisite conditions to educe euphoria inducing experiences Once you have created the requisite conditions to educe euphoria inducing experiences and have subsequently availed yourself of partaking in euphoria inducing experiences you will then be able to experience nostalgia by manifesting a sentimental yearning to re experience the euphoria that you experienced in a former time People indulge in experiencing nostalgia not only because certain euphoria inducing experiences of their past trump the experiences in their present in terms of their euphoria inducing value but also because they are dubious about the possibility of the novel experiences in their present being able to significantly eclipse the euphoria inducing experiences of their past in their

present in terms of their euphoria inducing value If people staunchly believed that the novel experiences in their present can significantly eclipse the euphoria inducing experiences of their past in their present in terms of their euphoria inducing value then they would be at a lower probability to experience nostalgia In order to create the requisite conditions to educe euphoria inducing experiences a person can be pursuant of salubrious hobbies Furthermore in addition to being highly time draining to be pursuant of certain hobbies can also be expensive to be pursuant of such as sports hobbies People should be pursuant of salubrious hobbies and should never be pursuant of insalubrious hobbies There are a myriad of disparate types of hobbies that people can be pursuant of The surfeit of different types of hobbies renders it possible for people to cherry pick hobbies to pursue that are tailored to their preferences People often grossly underestimate the totality of hobbies that there are in existence
