Buchanan,2012 This document gathers together 22 essays that were originally published as online commentary by Professor Neil H Buchanan between 2008 and 2012 All but one of the essays first appeared on the Dorf on Law blog In these essays Professor Buchanan discusses the arguments for and against government support of individual home ownership Most of the essays focus on how to move away from the model of individual ownership The latter essays however begin to embrace the possibility that home ownership incentives should be expanded to mitigate the current upside down quality of those subsidies and to preserve middle class professional jobs These essays were also included in the continuing legal education materials for the Teaching Tax session at the 2012 Joint Fall CLE meeting of the ABA Sections of Taxation and RPTE in Boston on September 14 2012
