Donna Shelley MD MPH Professor Dept Public Health Policy and Management Director Global Center for Implementation Science NYU School of Global Public Health Practical Implementation Science is designed for graduate health professional and advanced undergraduate students who want to master the steps of using implementation science to improve public health. The textbook is organized around the steps involved in planning, executing, and evaluating implementation efforts to improve health outcomes in communities. Coverage spans assessing the knowledge-practice gap, selecting an evidence-based practice (EBP) to reduce the gap, assessing EBP fit and adapting the EBP, assessing barriers and facilitators of implementation, engaging stakeholders, creating an implementation structure, implementing the EBP, and evaluating the EBP effort. Each chapter includes a how-to approach to conducting the task at hand. The text also addresses the practical importance of implementation science through disseminating EBPs, scaling up EBPs, sustaining EBPs, and deimplementing practices that are no longer effective. All chapters include learning objectives and summaries with emphasized Key Points for Practice, Common Pitfalls in Practice, and discussion questions to direct learning and classroom discussion.
