Lynn Cohen, 2001-12-12 Young children explore fairy tales through cooking art music and movement Truth and Rumors
Bill Brioux, 2007-12-30 When you first heard it you couldn't believe it Jerry Mathers from TV's Leave It To Beaver had been killed in Vietnam Then word came that Abe Vigoda the actor who played the curmudgeonly cop Fish on Barney Miller was dead and that Mikey who would eat anything as the Life Cereal tyke had eaten too many Pop Rocks and exploded Besides exposing us to things we couldn't otherwise believe television can convince us of things that never actually happened But how did these outrageous TV legends get started How did they spread from classrooms to boardrooms across North America and beyond And most important what do these rumors so quickly transformed into facts and common knowledge reveal about our relationship to reality through the medium of television Put in other words what exactly is it that we were doing when we were dealing in these fabulous rumors are we chasing after surprising truths or simply more incredible entertainment To take one telling example Jerry Mathers was not actually killed in Vietnam but the basic sense of this lie wasn't far removed from the emotions factually expressed in the two page spread of the faces of the dead in Time magazine In the course of this compelling work which is supplemented with interviews with many of the people implicated in these rumors author Bill Brioux exposes the reality behind the many stories that currently circulate in our culture Through these stories both true and false he sheds a revealing light on just what role these rumors play in contemporary society and what role our society plays in regard to these rumors as well **Creative Mavericks: Beacons of Authentic Learning** Sue Haynes, 2007-06-29 For over thirty years Sue Haynes has taught highly creative children who resist standardized learning and who are often mislabeled ADD and or learning disabled Through supporting their creative expression she has developed an alternative lens through which she sees their unique strengths Through this lens Sue sees not disabled learners but talented intuitive individuals who exhibit a passion for learning what intrigues them and a drive to express their learning in creative ways These learners are compelled to be true to their inner agendas and thus resist curriculums that lack personal relevance Sue

has discovered that creatively gifted learners and indeed all learners need the freedom and support to learn through intuitive knowing and creative expression in order to maximize their potential Sue's book about her theories and experiences Creative Mavericks Beacons of Authentic Learning consists of three sections Section One includes Who is the Creatively Gifted Learner which explores the attributes of highly creative learners and Seeing Through a Different Lens Facilitating the Creatively Gifted Learner which describes her teaching Section Two Heartsongs The Struggles and Triumphs of Creatively Gifted Learners includes the stories of twelve individuals who share reflections on their schooling and the fruition of their creative empowerment Section Three Implications of Education for Creatively Gifted Learners Awakening Passion and Authenticity in All Learners further explores the conditions which foster learning empowerment through the reflections of nine innovative classroom teachers These teachers reveal that the passion and creative expression so evident in highly creative learners are seeded within all learners and can be awakened by teaching which honors the uniqueness of each individual Sue's hope is that Creative Mavericks may inspire an exploration of teaching and learning that moves beyond the confines of standardized education and empowers our true potential Creative Teaching of Art in the Elementary School
