 Suominen,2010-10-19 History has declared globalization the winner of the 20th century Globalization connected the world
 and created wealth unimaginable in the wake of the Second World War But the financial crisis of 2008 09 has now placed at
 risk the liberal economic policies behind globalization Engulfing the entire world the crisis gave new fuel to the skeptics of
 the benefits of economic integration Policy responses seem to favor anti globalizers New regulations could balkanize the
 global financial system while widespread protectionist impulses might undo the Doha Round Issues from climate change to
 national security may be used as convenient excuses to keep imports out keep jobs at home and to clamp down on global
 capital Will globalization triumph or perish in the 21st century What reforms make sense in the post crisis world
 International economists Gary Clyde Hufbauer and Kati Suominen argue that globalization has been a force of great good
 one that needs to be actively advanced and honed Drawing on the latest economic analyses they reveal the drivers and
 effects of global finance and trade lay out the key risks to globalization and offer a practical policy roadmap for managing the
 challenges while increasing the gains Vital reading for anyone in business finance foreign affairs or economics Globalization

Restoring Opportunity Greg J. Duncan,Richard J. Murnane,2014-01-01 In this landmark volume Greg J Duncan and
 Richard J Murnane lay out a meticulously researched case showing how in a time of spiraling inequality strategically targeted
 interventions and supports can help schools significantly improve the life chances of low income children The authors offer a

brilliant synthesis of recent research on inequality and its effects on families children and schools They describe the interplay of social and economic factors that has made it increasingly hard for schools to counteract the effects of inequality and that has created a widening wedge between low and high income students Restoring Opportunity provides detailed portraits of proven initiatives that are transforming the lives of low income children from prekindergarten through high school All of these programs are research tested and have demonstrated sustained effectiveness over time and at significant scale Together they offer a powerful vision of what good instruction in effective schools can look like The authors conclude by outlining the elements of a new agenda for education reform Restoring Opportunity is a crowning contribution from these two leading economists in the field of education and a passionate call to action on behalf of the young people on whom our nation s future depends Copublished with the Russell Sage Foundation **World Agricultural Economics and Rural Sociology Abstracts** ,1995
