Presenting a topical analysis of the challenges and achievements of enterprise Enterprise and Economic Development in Africa examines contributions to economic development on the continent as well as exploring implications for policy dimensions Resources in Education, 2001-10 Financial Literacy Education Chris Arthur, 2012-10-13 Consumer financial literacy education often appears as a helpful commonsense solution to neoliberalism and the individualization of responsibility for economic risk However in Financial Literacy Education Neoliberalism the Consumer and the Citizen this particular literacy is argued to be both ineffective and unjust Socially created poverty unemployment and economic insecurity require more than individual consumer solutions they require collective responses by engaged critical citizens Utilizing concepts from Marx Foucault Bourdieu and Baudrillard this book challenges those who claim that there is no alternative to neoliberal insecurity and reduce education to a consumerist training of entrepreneurial consumer citizens who

can continually invest in themselves and the market Through an analysis of consumer financial literacy education's present and historical supports as well as its likely effects this book argues that the choice before us is not financial illiteracy or financial literacy Rather the choice is between subjugation to the requirements of perpetual competition or overcoming alienation insecurity and exploitation aims the critical financial literacy education outlined at the end of this book supports This book will appeal to those interested in understanding the conditions of our freedom in an increasingly financialized world critical educators philosophers and sociologists of education and financial literacy researchers
