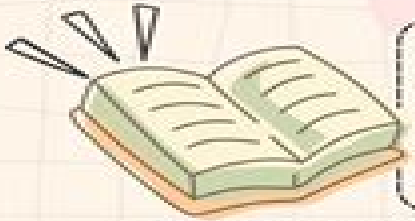
Seeming Confusion: Unraveling the Past Tense of "Seem"

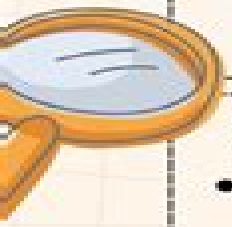


Definition:

Seem is a verb that indicates a state of appearance or perception.

The past tense:

- To express this state in the past, we use the past tense of seem, which is seemed.
- For example, "It seemed like a good idea at the time" indicates that in the past, the idea appeared to be good.



The past participle:

- The past participle of seem is also seemed, which is used in the present perfect tense.
- For example, "I have seemed distant lately" indicates that in the past and up to the present, the speaker has appeared distant."

The irregularity of the past tense of seem can make it tricky to use correctly, but with practice, it can become second nature. So, the next time you want to express a state of appearance or perception in the past, remember to use seemed instead of seem.
