I Crawl Through It A.S. King, 2024-10-08 A new edition of Michael L Printz Award winner A S King s brilliant and bizarre story of teenage trauma and standardized tests Kurt Vonnegut might have written a book like this New York Times Book Review Four accomplished teenagers are on the verge of explosion The anxieties they face at every turn have nearly pushed them to the point of surrender senseless high stakes testing the lingering damage of trauma the buried grief and guilt of tragic loss They are desperate to cope but no one is listening So they will lie They will split in two They will turn inside out They will build an invisible helicopter to fly themselves far away from the pressure but nothing releases the pressure Because as they discover the only way to truly escape their world is to fly right into it A S King reaches new heights in this groundbreaking work of surrealist fiction it will mesmerize readers with its deeply affecting exploration of how we crawl through traumatic experience and find the way out

Leadership from the Ground Up Michele A. Acker-Hocevar, Marta I. Cruz-Janzen, Cynthia L. Wilson, 2012-01-01 This book chronicles the journey of seven schools serving students of poverty English Language Learners ELLs and students of color which were able to sustain school improvement for a decade on either state and or national criteria that measure student performance outcomes The book shares stories of these seven schools and demonstrates that it takes an entire

school working together with their communities adding to the social and cultural capital of their students and families to create and nurture what we call a Learning Partnership for sustainable school improvement The answers for how these schools sustained school improvement and are effective schools is evident from their school student metrics that validate the school's ability to meet and sustain external mandates of high performance over time The seven individual case stories illustrate that what matters most is what happens in the school itself It is the internal culture of caring and respecting each other and working from an additive perspective of valuing students for their unique gifts and abilities rather than exclusively focusing on increasing test scores that makes these school stories unique This is not about heroic leadership but leadership spread out and shared among professionals working together to achieve common goals around shared values and beliefs This book is about using resources in ways that value human capital as the greatest asset in the school to ensure that educators feel a sense of commitment connection and passion for their work together with students their families and their communities that enable them to excel together We offer readers seven cases that demonstrate there is no cookie cutter approach to having an effective school Rather there is a theory in practice that grounds the Learning Partnership depicted as a tree within a sustainable school improvement culture This sustainable culture connects shared leadership and accountability resourcefulness a humanistic philosophy additive schooling and results in an organization synergy that sustains organizational and collective efficacy for achieving results in these schools that other educators in schools with similar demographics are often unable to sustain or attain

Children, politics and communication Thomas, Nigel, 2009-05-06 Even after 20 years of children's rights and new thinking about childhood children are still frequently seen as apolitical All over the world there has been a growing emphasis

on participation but much of this is adult led and spaces for children's individual and collective autonomy are limited. Children's politics and communication questions many of the conventional ways in which children are perceived. It focuses on the politics of children's communication in two senses: children as political actors and the micropolitics of children's interaction with each other and with adults. It looks at how children and young people communicate and engage, how they organise themselves and their lives, and how they deal with conflict in their relationships and the world around them. These are children at the margins in various ways but they are not victims; they are finding ways to take charge of their own lives. The book is also about adults and how they can interact with children and young people in ways that are sensitive to children's feelings, empowering and supportive of their attempts to be autonomous. With international contributions from a range of disciplines, *Children's politics and communication* is timely and relevant for policy makers, practitioners and researchers engaging with children and young people.

The Optimist Dwight Estava,2012-03-08 Callum Eden is a hotshot financial executive who in time becomes an insatiable womaniser with a scorn for commitment and happy living life at the top of his game But one day having already woken up in a bad mood he is greeted by some bad news His life rapidly falls apart and he struggles to make sense of it all He is perplexed as to why hes experiencing such a dramatic contrast to his life He had everything going for him particularly in his career but he has to learn very quickly that there is no such thing as a perfect life Callum now faces a torrent of emotions that he struggles to cope with and feelings he is unable to express The accident the change to his fortune and his new allies sets him on a journey of mental and emotional self discovery In Callums opinion his own lack of concerns added to his fallen angel syndrome He redeems himself by learning to rely on action rather than imagination to steer himself out of his crisis However his interpretation is problematic because they cause a chain reaction His only comfort is his subconscious reality a place where he finds some form of sanity until actual reality resumes once again Thus he must try to establish a link between the two realities to find comfort and confidence in what he is experiencing His life changes and veers off course with compelling complexities and brutal and seemingly honest decisions Some of which are rewarded with quick fixes but results are above the pleasures of deeper self discovery Others are extremely deceptive with scenes of betrayal and corruption His biggest critic comes from an unusual source with whom he agrees in time may bring him closure But just when he thinks
