Iata Terminal Design Guide:

Airport Passenger Terminal Planning and Design Landrum & Brown, 2010 TRB's Airport Cooperative Research Program ACRP Report 25 Airport Passenger Terminal Planning and Design comprises a guidebook spreadsheet models and a user's guide in two volumes and a CD ROM intended to provide guidance in planning and developing airport passenger terminals and to assist users in analyzing common issues related to airport terminal planning and design Volume 1 of ACRP Report 25 explores the passenger terminal planning process and provides in a single reference document the important criteria and requirements needed to help address emerging trends and develop potential solutions for airport passenger terminals Volume 1 addresses the airside terminal building and landside components of the terminal complex Volume 2 of ACRP Report 25 consists of a CD ROM containing 11 spreadsheet models which include practical learning exercises and several airport specific sample data sets to assist users in determining appropriate model inputs for their situations and a user's guide to assist the user in the correct use of each model The models on the CD ROM include such aspects of terminal planning as design hour determination gate demand check in and passenger and baggage screening which require complex analyses to support planning decisions The CD ROM is also available for download from TRB's website as an ISO image *Airport Passenger Terminal Planning and Design: Spreadsheet models and user's guide* Landrum & Brown, 2010 TRB's Airport Cooperative Research Program ACRP Report 25 Airport Passenger Terminal Planning and Design comprises a guidebook spreadsheet models and a user's guide in two volumes and a CD ROM intended to provide guidance in planning and developing airport passenger terminals and to assist users in analyzing common issues related to airport terminal planning and design Volume 1 of ACRP Report 25 explores the passenger terminal planning process and provides in a single reference document the important criteria and requirements needed to help address emerging trends and develop potential solutions for airport passenger terminals Volume 1 addresses the airside terminal building and landside components of the terminal complex Volume 2 of ACRP Report 25 consists of a CD ROM containing 11 spreadsheet models which include practical learning exercises and several airport specific sample data sets to assist users in determining appropriate model inputs for their situations and a user's guide to assist the user in the correct use of each model The models on the CD ROM include such aspects of terminal planning as design hour determination gate demand check in and passenger and baggage screening which require complex analyses to support planning decisions The CD ROM is also available for download from TRB's website as an ISO image Civil Engineer's Reference Book L S Blake, 1994-03-21 After an examination of fundamental theories as applied to civil engineering authoritative coverage is included on design practice for certain materials and specific structures and applications A particular feature is the incorporation of chapters on construction and site practice including contract management and control *Airport Passenger Conveyance Systems Planning Guidebook* TransSolutions, LLC., 2012 Describes best practices and specific design considerations and presents decision making frameworks for

implementing passenger conveyance systems Passenger conveyance components include escalators elevators moving walkways and passenger assist vehicles carts Automated People Mover systems the subject of ACRP Reports 37 and 37A personal rapid transit systems and shuttle bus systems are not covered in the Guidebook In addition to the Guidebook ACRP Report 67 also includes a comprehensive database along with a Decision Support Tool for planning designing and evaluating passenger conveyance systems at airports as a function of specific airport design and operating parameters This database allows project planners to examine how passenger conveyance components operate as a system throughout different areas within the airport environment Foreword **Airport Engineering** Norman J. Ashford, Saleh Mumayiz, Paul H. Wright, 2011-04-26 First published in 1979 Airport Engineering by Ashford and Wright has become a classic textbook in the education of airport engineers and transportation planners Over the past twenty years construction of new airports in the US has waned as construction abroad boomed This new edition of Airport Engineering will respond to this shift in the growth of airports globally with a focus on the role of the International Civil Aviation Organization ICAO while still providing the best practices and tested fundamentals that have made the book successful for over 30 years *Airport Design and Operation* Antonin Kazda, Robert E. Caves, 2015-08-05 In this third edition the chapters have been enhanced to reflect changes in technology and the way the air transport industry runs Key topics that are newly addressed include low cost airline operations security issues and EASA regulations on airports A new chapter covering extended details about wildlife control has been added to the volume *Guidebook for Evaluating Terminal Renewal Versus Replacement Options* Ricondo & Associates, 2012 At head of title Airport Cooperative Research Program *Facility Requirements*, 1996 *Guide to the Decision-making Tool for Evaluating Passenger Self-tagging* Francis Barich, 2011 TRB's Airport Cooperative Research Program ACRP Report 41 Guide to the Decision Making Tool for Evaluating Passenger Self Tagging provides the information and tools included on and accompanying CD ROM necessary for an airport or airline to determine the appropriateness of pursuing passenger self tagging should it be allowed in the United States in the future The tools in an Excel Spreadsheet format allow for the input of airport specific information such as facility size and passenger flows while also providing industry averages to assist those airports and airlines that haven't yet collected their individual information The decision making tools provide both qualitative and quantitative information that can then be used to assess if passenger self tagging meets organizational needs or fits into their strategic plan Appendix A to ACRP 41 was published online as ACRP Web Only Document 10 Appendix A Research Documentation for ACRP Report 41 The CD ROM included as part of ACRP Report 41 is also available for download from TRB's website as an ISO image [Airport Design](#) Tateng K.
