

Title page

The title appears in its own page which also features the research question and candidate details as instructed. You can also add a relevant image with a caption.

Table of contents

Give a short outline of the general layout of the essay. That means headings and sub-headings in order with page numbers indicated for easy navigation.

Abstract

State your research question. You should also state the scope of the investigation at this point with a mention of the sources you will be investigating and the methods you will use. Towards the end of the abstract, state your main findings in brief. This is intended to guide those who may not have the time to read through the entire paper.

Introduction

Introduce the essay by telling the reader about what you will be investigating. Make the introduction interesting and intriguing to hook the reader's attention. Give the context of what you are researching and comment on why it's important.

Body

This is where you lay out your investigation in paragraphs, each argument to a paragraph. You can organize the body in different sections, albeit without subheadings, as such:

- The first paragraph can lay the outline of what you're going to discuss.
- Describe the material you will be using with a full Harvard-style citation. For each source, state its credibility including the origin, purpose, and main limitations.
- Debates – State your main arguments, with one per paragraph.
- Debate analysis- - Analyze the weaknesses of your debate, explain and describe any challenges faced, and link the whole section to the research question.

Conclusion

Conclude the essay with a restatement of the research question and the salient points discussed. Comment on any weaknesses in the logic or backing evidence for any of your arguments and suggest improvements that can be incorporated in future.
