INTRODUCTION

Introduction

Using Your Operator's Manual

Read the entire operator's manual, especially the safety information, before operating.

This manual is an important part of your machine. Keep all manuals in a convenient location so they can be referenced easily.

Use the safety and operating information in the attachment operator's manual, along with the machine operator's manual, to operate and maintain the attachment safely and correctly.

If your attachment manual has a section called *Preparing the Machine*, it means that you will have to do something to your tractor to make before you can install the attachment. The Assembly and Installation sections of this manual provide information to assemble and install the attachment to your tractor or vehicle. Use the Service section to make any needed adjustments and routine service to your attachment.

If you have any questions or concerns with the assembly, installation, or operation of this attachment, ask your local John Deere dealer or call the John Deere Customer Contact Center at 1-800-527-6000 for assistance. Warranty information on this John Deere attachment can be found in the warranty that came with your John Deere tractor or vehicle.

Machine Use

This machine is designed solely for use in customary farm housing operations. Use in any other way is considered an abusive or unintended use.

The manufacturer accepts no liability for damage or injury resulting from this misuse, and these risks must be borne solely by the user. Compliance with and strict adherence to the conditions of operation, service and repair as specified by the manufacturer also constitute essential elements for the intended use.

This machine should be operated, serviced and repaired only by persons familiar with all its particular characteristics and acquainted with the relevant safety rules (warning precautions). The operator must read regulations, all other generally recognized regulations on safety and occupational medicine and the local traffic regulations must be observed at all times.

Following instructions beyond published factory specifications or otherwise manipulating will result in loss of warranty protection for the machine.

Any arbitrary modifications carried out on the machine will void the manufacturer's liability for any resulting damage or injury.
