

Transmitter Operation:

1. Set the POWER slide switch on the on the side of the transmitter unit to the ON position.
2. Insert and dock the transmitter unit into the Base Station in order to sync them together and to charge the transmitter's battery.

Tips:

- If the transmitter's battery is fully discharged, it may take up to 5 hours to fully charge.
- **Important!** - Turn off at end of shift or charge using desktop charger.
- It is strongly recommended that the desktop charger be used for daily charging.
- Mic will not charge in base station if the video system is off.
- Only the last transmitter sync'd will communicate with the base station.
- Once the transmitter is adequately charged, the transmitter can be placed on your uniform using the supplied pouch or in your uniform's pocket.
- Do not place transmitter under a bullet-proof vest, and make sure the front of the transmitter (antenna) faces away from your body.

3. The transmitter can be used to start a recording by pressing the REC button. You will feel a **single buzz** or hear a **single beep** (depending on the position of the switch on the side opposite the power switch) and the In-Use LED will change from red to green.
 - While the system is recording audio, a Mic icon will appear on the screen above the video window.
 - If a low battery condition exists the Low Batt will blink red until 25% battery remains, then display steady red when <25% battery is left.
4. While recording, the transmitter can be muted by pressing the REC button – you will feel a **double buzz** or hear a **double beep**. Press the switch again to return to active mode.

Tips:

- Even when audio is muted, video recording continues.
- The EMG switch is inactive.
