Dinomania Ulrich Merkl, 2015-11-25 Winsor McCay, the creator of Little Nemo in Slumberland, is internationally renowned as a pioneer in comics and animation. But author Ulrich Merkl's dedicated sleuthing has unearthed a never-published strip by McCay that was lost following the artist's untimely death. Titled simply *Dino*, it opens a surprising new window into McCay's life and work and showcases his exquisitely beautiful and delicate delineations, exactly reproduced from the original art. Merkl explores the influences McCay brought to the strip, including McCay's own *Gertie the Dinosaur* animated shorts, the animation in 1933's *King Kong*, and the growth of New York City from the Holland Tunnel to the Empire State Building, and traces our love of dinosaurs and monster movies down through the decades. Breathtakingly designed, each page of this deluxe oversize volume is overflowing with amazing imagery, with more than 650 photographs and illustrations, more than 250 in color, most of them seen here for the first time in a century. An essential volume for everyone interested in the development of the comic strip and our never-ending fascination with dinosaurs.

The City's End Max Page, 2008-01-01 From nineteenth-century paintings of fires raging through New York City to scenes of Manhattan engulfed by a gigantic wave in the 1998 movie *Deep Impact*, images of the city's end have been prolific and diverse. Why have Americans repeatedly imagined New York's destruction? What do the fantasies of annihilation played out in virtually every form of literature and art mean? This book is the first to investigate two centuries of imagined cataclysms visited upon New York and to provide a critical historical perspective to our understanding of the events of September 11, 2001. Max Page examines the destruction fantasies created by American writers and imagemakers at various stages of New York's development. Seen in every medium, from newspapers and films to novels, paintings, and computer software, such images, though disturbing, have been continuously popular. Page demonstrates with vivid examples and illustrations how each era's destruction genre has reflected the city's economic, political, racial, or physical tensions, and he also shows how the images have become forces in their own right, shaping Americans' perceptions of New York and of cities in general.

Early Works Winsor McCay, 2005-05-18 Checker's goal is to gather in one series all of McCay's work other than *Little Nemo*, which has seen widespread reprint publication. Besides the first time ever, complete reprintings of better-known fixtures in the McCay canon, like *Hungry Henrietta*, *Little Sammy Sneeze*, and *A Pilgrim's Progress*, Checker is gathering short-lived rarities from McCay's early days as an illustrator.

Architectures of Hiding Rana Abughannam, Émélie Desrochers-Turgeon, Pallavi Swaranjali, Federica Goffi, 2024-01-31 Architecture manifests as a space of concealment and unconcealment, *lethe* and *altheia*, enclosure and disclosure, where its making and agency are both hidden and revealed.
