 Future Force Performance Measures (army Class)** Karen O. Moriarty,2009 To meet the challenges facing the Army the  
 Army needs predictor measures that will enhance entry level Soldier selection and classification One of the purposes of the  
 Army Research Institute for Behavioral and Social Sciences ARI s Army Class project is to provide the Army with  
 recommendations on which predictor measures in particular measures of non cognitive attributes e g interests values and  
 temperament demonstrate the greatest potential to inform entry level Soldier selection and classification decisions The  
 present report documents the development of criterion measures to assist in these analyses A second purpose of the Army  
 Class project is to develop and pilot job knowledge tests JKTs that can be used to aid reclassification decisions If Soldiers are  
 shown to possess critical knowledge skills and attributes KSAs for their new jobs this could reduce training requirements and  
 increase force readiness This report documents the development of reclassification JKT test items      **Installation
