Critical Thinking for Marketers, Volume I David Dwight, Terry Grapentine, David Soorholtz, 2016-12-02 All marketing actions whether preceded by formal or informal decision making processes are based on what philosophers call arguments An argument is a set of related statements comprising premises and a conclusion Ideally premises give an audience good reasons for accepting your argument s conclusion In marketing these conclusions are normative decisions about what an organization should do for example raise prices by five percent add a new sales territory or perhaps change the marketing communications mix to invest more in digital and less in print The premises are the rationale behind why the organization should take such actions *Critical Thinking for Marketers Learn How to Think Not What to Think* provides information and guidelines on not only how to develop good arguments but also what it means to develop a good argument For example the book describes two basic kinds of arguments deductive and inductive and how to examine whether such arguments are good or not To do this the book explains 60 logical fallacies or errors in reasoning that marketers should avoid Additionally the authors several Think Better discussions examine how fields such as philosophy behavioral economics and marketing theory

have informed the principles of critical thinking in marketing

Attractive Thinking Chris Radford, 2019-11-01 Forget everything you've been told about maximizing Lifetime Customer Value. To take your business to the next level, you need a brand strategy that's focused on attracting new customers, not exploiting existing ones. In this transparent digital age, smart business leaders know that profitable growth comes from helping customers, not exploiting them. *Attractive Thinking* sets out a ground-breaking methodology developed during 30 years' experience transforming brands for Pepsi, Mars, Miracle Gro, and many high-end service businesses to achieve exactly that. Discover the five key questions you must answer to create a better brand strategy and the tools to deliver it: clarity on what matters to customers, products and services that customers love, marketing that attracts them, and a team that is committed to delivering it. *Attractive Thinking* is a practical handbook for CEOs, managing directors, and marketers who want to make the big brand techniques work for them.

Critical Thinking for Marketers, Volume II David Dwight, Terry Grapentine, David Soorholtz, 2016-12-02 This second volume of *Critical Thinking for Marketers* expands your background knowledge of other areas of critical thinking that are making major contributions to both marketing as a social science and marketing as an applied science. Section I, *Think Better*, provides introductory discussions of marketing as a science, the difference between correlation and causation, the meaning of what a concept is, and why it is critical for marketers to develop good concept definitions. e.g. What is customer satisfaction? Why the 18th-century Scottish philosopher David Hume is relevant to marketers today, and the impact that behavioral economics is having on how marketers do their job. Section II, *Cognitive Biases and Their Importance*, talks about recent discoveries in cognitive psychology and neuroscience that have relevance to marketers. You'll learn that marketers need to be aware of their own cognitive biases and irrational thinking processes, which often lead to making bad decisions, and that the retail and business customers we market to are not as rational as we may think, and hope they are. Finally, Section III, *Conclusions*, draws on both Volumes I and II to summarize the book's primary messages with helpful hints on applying your new tools and making better marketing decisions.

Teaching Marketing Brennan, Ross, Vos, Lynn, 2021-11-19 *Teaching Marketing* prompts the reader to reflect on why marketing is taught, how it is taught, and what should be included in curricula in tertiary-level programmes. The international contributors have a wide range of expertise in marketing education and provide their own perspectives on these questions while considering a variety of different points of view, so encouraging the reader to develop their own opinion.

Marketing Effectiveness Sorin Patilinet, 2025-08-03 In recent years, with tightening budgets, an explosion of data points, and advancements in analytical methods, marketers are now more than ever expected to deliver quantifiable results. This is where marketing effectiveness comes in. Contrary to popular belief, marketing effectiveness is not just about the measuring of ROI. The lens of effectiveness must be applied to all marketing mix elements, from strategy to pricing and product to media and advertising. It's a strategic shift that demands robust evidence-based decisions and consistent application in order to grow. Written by leading marketing practitioner Sorin Patilinet, this book enables mid-senior

level marketers to integrate the scientific methods and advanced measurements required for true marketing effectiveness into their marketing strategies in order to reap the benefits of strong customer understanding and developing decision making processes for growth Covering everything from neuroscience and its application to marketing to advanced analytics and machine learning models this book provides a comprehensive practical guide for marketers It also takes a look into the future of how AI will impact the use of marketing effectiveness and features real world examples from Snickers Warby Parker and Uber Eats
